

F3 to Spend \$16 Million on Drilling at PLN

written by Raj Shah | December 27, 2023

December 27, 2023 ([Source](#)) – F3 Uranium Corp (TSXV: FUU) (OTCQB: FUUFF) (“F3” or “the Company”) is pleased to announce that it is on track for mobilization to start in early January for the 2024 exploration program, budgeted at \$16M, of ground geophysics and drilling on its flagship Patterson Lake North (“PLN”) Property.

The program objectives are to continue to expand the JR Zone following up on recently announced high grade intercepts (see NR dated December 18, 2024), to discover additional mineralized zones along the 5km A1 and parallel B1 shear zones, and to make new discoveries elsewhere on the 98,708 acre PLN Project claims area. The JR Zone discovery made just over 1 year ago increased the prospectivity of the entire PLN Project area.

About Patterson Lake North:

The Company’s 4,078-hectare 100% owned Patterson Lake North property (PLN) is located just within the south-western edge of the Athabasca Basin in proximity to Fission Uranium’s Triple R and NexGen Energy’s Arrow high-grade world class uranium deposits which is poised to become the next major area of development for new uranium operations in northern Saskatchewan. PLN is accessed by Provincial Highway 955, which transects the property, and the new JR Zone uranium discovery is located 23km northwest of Fission Uranium’s Triple R deposit.
