

# FendX Announces Grant of Stock Options and RSUs

written by Raj Shah | July 18, 2024

July 18, 2024 ([Source](#)) – **FendX Technologies Inc. (CSE: FNDX) (OTCQB: FDXTF) (FSE: E8D)** (the “**Company**” or “**FendX**”), a nanotechnology company developing surface protection coatings announces it has granted stock options and restricted share units (“RSUs”) to certain directors, officers, employees and consultants.

FendX granted an aggregate of 3,950,000 stock options to certain directors, officers, employees and consultants at an exercise price of \$0.29 expiring five years from the date of grant. The stock options are subject to vesting provisions such that 50% of the options vest on the grant date and 25% vest on each of the dates that is nine and eighteen months from the date of grant. In addition, the Company granted an aggregate of 1,150,000 RSUs to two officers and a consultant. The RSUs vest as to 50% on the grant date and 25% on each of the dates that is nine and eighteen months from the date of grant. The stock options and RSUs were granted in accordance with the Company’s equity incentive plan dated October 19, 2021. All of the stock options and RSUs are subject to a hold period of four months and one day from the date of grant.

None of the securities will be registered under the United States Securities Act of 1933, as amended (the “**1933 Act**”), and none of them may be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the 1933 Act. This news release shall not constitute an offer to sell or solicitation of an offer to buy nor shall there be any sale of the securities in any state where

such offer, solicitation, or sale would be unlawful.

### **About FendX Technologies Inc.**

FendX is a Canada-based nanotechnology company focused on developing products to make people's lives safer by reducing the spread of pathogens. The Company is developing both film and spray products to protect surfaces from contamination. The lead product under development, REPELWRAP™ film, is a protective surface coating film that, due to its repelling properties, prevents the adhesion of pathogens and reduces their transmission on surfaces prone to contamination. The spray nanotechnology is a bifunctional spray coating being developed to reduce contamination on surfaces by repelling and killing pathogens. The Company is conducting research and development activities using its nanotechnology in collaboration with industry-leading partners, including McMaster University. The Company has exclusive worldwide licenses to its technology and IP portfolio from McMaster, which encompass both film and spray coating nanotechnology formulations.

## **Forward-Looking Statements**

This news release contains certain forward-looking statements within the meaning of Canadian securities legislation, including with respect to: the plans of the Company; the Company's belief that REPELWRAP™ will have applications in healthcare settings and other industries; and products under development and any pathogen reduction benefits related thereto. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-Looking statements are statements that are not historical facts; they are generally, but not always, identified by the words "expects," "plans," "anticipates," "believes," "intends," "estimates," "projects," "aims," "potential," "goal," "objective," "prospective," and similar expressions, or that events or conditions "will," "would," "may," "can," "could" or "should" occur, or are those statements, which, by their nature, refer to future events. The Company cautions that forward-looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made, and they involve a number of risks and uncertainties. Consequently, there can be no assurances that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements.

Important factors that could cause future results to differ materially from those anticipated in these forward-looking statements include: product candidates only being in formulation/reformulation stages; limited operating history; research and development activities; dependence on collaborative

partners, licensors and others; effect of general economic and political conditions; and other risk factors set forth in the Company's public filings which are available on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca). The reader is urged to refer to such public filings for a more complete discussion of such risk factors and their potential effects. Except to the extent required by applicable securities laws and the policies of the Canadian Securities Exchange, the Company undertakes no obligation to update these forward-looking statements if management's beliefs, estimates or opinions, or other factors, should change.
