

# FendX Technologies to Participate at Upcoming AlphaNorth Capital Event

written by Raj Shah | January 12, 2024

January 12, 2024 ([Source](#)) – **FendX Technologies Inc.** (CSE: FNDX) (OTCQB: FDXTF) (FSE: E8D) (the “Company” or “FendX”), a nanotechnology company developing surface protection coatings to reduce the spread of pathogens, announces participation in the 10<sup>th</sup> annual AlphaNorth Capital Event sponsored by Capital Events Management to be held in Nassau, Bahamas on January 19-21, 2024.

This event will give top-tier investors the opportunity to meet FendX’s CEO, Dr. Carolyn Myers for one-on-one meetings and provide for networking opportunities throughout the event.

“As we start 2024, we are excited to build on and share the achievements we have made to-date,” said Dr. Carolyn Myers, CEO and President of FendX. “We made significant progress to further our nanotechnology in 2023, including, most recently the completion of our second pilot manufacturing run for our REPELWRAP™ film scale-up development with Dunmore International Corp. In addition, we have been progressing our development work on our spray nanotechnology and signed a Master Services Agreement with nanoComposix, LLC to assess and conduct intermediate scale-up, and have entered into a collaborative research agreement with McMaster University to commence R&D work to develop a coating for catheters. We are pleased with the accomplishments we made in 2023 and are excited about what we can accomplish in 2024 to further our nanotechnology.”

**About FendX Technologies Inc.**

FendX is a Canada-based nanotechnology company focused on developing products to make people's lives safer by reducing the spread of pathogens. The Company is developing both film and spray products to protect surfaces from contamination. The lead product under development, REPELWRAP™ film, is a protective surface coating film that, due to its repelling properties, prevents the adhesion of pathogens and reduces their transmission on surfaces prone to contamination. The spray nanotechnology is a bifunctional spray coating being developed to reduce contamination on surfaces by repelling and killing pathogens. The Company is conducting research and development activities using its nanotechnology in collaboration with industry-leading partners, including McMaster University. The Company has an exclusive worldwide license to its technology and IP portfolio from McMaster, which encompass both film and spray coating nanotechnology formulations.

## **Forward-Looking Statements**

This news release contains certain forward-looking statements within the meaning of Canadian securities legislation, including with respect to: the plans of the Company; and products under development and any pathogen reduction benefits related thereto. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are statements that are not historical facts; they are generally, but not always, identified by the words “expects,” “plans,” “anticipates,” “believes,” “intends,” “estimates,” “projects,” “aims,” “potential,” “goal,” “objective,” “prospective,” and similar expressions, or that events or conditions “will,” “would,” “may,” “can,” “could” or “should” occur, or are those statements, which, by their nature, refer to future events. The Company cautions that forward-looking statements are based on the beliefs, estimates and opinions of the Company’s management on the date the statements are made and involve several risks and uncertainties. Consequently, there can be no assurances that such statements will prove to be accurate, and that actual results and future events could differ materially from those anticipated in such statements.

Important factors that could cause future results to differ materially from those anticipated in these forward-looking statements include: product candidates only being in formulation/reformulation stages; limited operating history; research and development activities; dependence on collaborative partners, licensors and others; effect of general economic and political conditions; and other risk factors set forth in the

Company's public filings which are available on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca). Accordingly, the reader is urged to refer to the Company's such filings for a more complete discussion of such risk factors and their potential effects. Except to the extent required by applicable securities laws and the policies of the Canadian Securities Exchange, the Company undertakes no obligation to update these forward-looking statements if management's beliefs, estimates or opinions, or other factors should change.
