

FINATRADES of RAMINVEST Holding and CVMR® Corporation Announce the Creation of a US \$7 Billion Gold-Backed Critical Minerals Fund Dedicated to Mining, Refining and Monetizing Various Mineral Resources to Ensure a Stable Supply of Refined Critical Metals to USA and other NATO Member Countries.

written by Raj Shah | September 2, 2025

September 2, 2025 – **CVMR® Corporation**, a global mining and metal refining corporation, and **FINATRADES**, a digital finance and trading platform, are pleased to announce the signing of an agreement creating the U.S.-based, **Critical Materials Fund Corporation** (“**CMFC**”). **CMFC** will finance the development and refining of critical metal resources. This landmark collaboration will leverage the strengths of both organizations in creating and managing a secure, traceable, and tradable supply chain of mineral assets and digital representations of those refined physical assets. Digital metal assets will be tokenized and integrated into the **FINATRADES**’ platform, enabling a broad range of financial options including trading,

collateralization, lending, and settlement.

The **FINATRADES** and **CVMR®** collaboration focuses on the tokenization, development and exchange of metal assets, particularly precious metals and critical materials including Rare Earth Elements (REEs), high performance metals and uranium. Investors' capital will receive the added benefit of having their investment fully backed by actual and proven gold reserves. **CVMR®**'s proven reserves of critical mineral assets exceed US \$25 billion in value. **CMFC**'s mineral assets will be delivered through its secure supply chain and final products will be produced and refined using **CVMR®**'s proprietary technologies and systems, tokenized through **FINATRADES**' platform.

FINATRADES' financial ecosystem is leveraged to provide convenient, accessible and efficient digital instruments for **CMFC** while **CVMR®** will manage the acquisition, development, operations and marketing of refined metals.

The **FINATRADES** platform goes live this month (September 2025) with an initial token offering fully backed by physical gold reserves.

About FINATRADES

FINATRADES is a next-generation digital platform that streamlines international trade, payments and financing operations with unmatched efficiency. Strengthened by its Swiss-licensed financial institution, **FINATRADES** offers advanced financial services including multi-currency and digital accounts, in addition to secure asset tokenization. **FINATRADES** combines cutting edge financial technology with the trust and regulatory strength of Switzerland to offer fast, compliant and risk-mitigated solutions. **FINATRADES** and **FINATRADES FINANCE SA** are part of the **RAMINVEST** Holding ecosystem where together they

manage both large-scale international trades and routine financial operations. Headquartered in the prestigious **Dubai International Financial Centre** (DIFC), with a legacy rooted in delivering sophisticated financial instruments and smart trade facilitation, RAMINVEST Holding has built a resilient network of specialized subsidiaries such as **WINCOMMODITIES DMCC** and **WINGOLD & METALS DMCC**, each focused on solving real world trade and financial challenges. From addressing hard currency shortages with innovative barter systems to enabling direct access to global commodities markets, **RAMINVEST** Holding is more than a holding company, it is a catalyst for sustainable economic growth and financial empowerment.

About CVMR® Corporation

CVMR® is a mining and refining corporation with its head office located in Toronto and operations in 22 countries. It provides a supply of critical mineral resources for refining at **CVMR® Corporation** in Canada, **CVMR® (USA) Inc.** in the United States, at **CVMR® (Albania) Sh.P.K.** in Europe, **CVMR® MADENCİLİK SANAYİ VE TİCARET LİMİTED ŞİRKETİ** in Türkiye, and in Africa through 6 African based operations. **CVMR®**'s mining and refining operations ensure direct involvement of the host countries' governments. Integrated management of **CVMR®** refining operations with metal markets supply and inventory control of finished products delivers accountability for industrial market commitments. **CVMR®** refines metals, mostly in nickel, iron, cobalt, PGEs, copper, gold, silver, lithium, tantalum, niobium, molybdenum, vanadium, scandium, uranium, REEs and manufactures high value metal products. Over the past 40 years, **CVMR®** has developed a unique, patented, series of processes and technologies based on its proprietary vapor metallurgy platform used in refining of

transition metals to manufacture various metal powders, nano-powders, complex net shapes and products.

CVMR®'s refining/manufacturing process produces metal products with exceptionally high purity and unique performance characteristics.
