

Global Blockchain Becomes Media Sponsor for FFCON18: VELOCITY

written by Raj Shah | March 3, 2018

March 4, 2018 ([Source](#)) – *Participating alongside leading names in blockchain, fintech and the finance world, this conference will be where many advances for blockchain will occur in 2018*

GLOBAL BLOCKCHAIN TECHNOLOGIES CORP. (CSE: BLOC) (FSE: BWSP) (OTC Pink: BLKCF) (“BLOC” or the “Company”) is pleased to announce that it will be a media partner for the Fintech and Funding Conference of 2018.

The National Crowdfunding & Fintech Association of Canada (NCFA) and partners are proud to present FFCON18: VELOCITY (2018 Fintech and Funding Conference) on Monday, March 5th and Tuesday, March 6th. Currently in its fourth year, this conference offers a full scope of insights, knowledge and commentary from leaders and innovators in the blockchain industry; as well as regulators, lawyers and several notable names in the world of tech. BLOC is proud to announce that it will be a media partner for this event, giving it presence at what will be a defining conference for the trajectory of the blockchain in Canada for 2018 and beyond.

“We are honoured to have BLOC on board as a media partner”, says Craig Asano – Founder and CEO of NCFA. “Their accomplishments to date in blockchain-related ventures have helped to put Canada on the map as a leading market in this sphere. We’re thrilled to have BLOC participate at FFCON, because we know the amount of influence that they carry in this field – which is very much of interest to our attendees, exhibitors and speakers.”

At the conference, there will be five different streams of content, several learning and networking events, VIP one-on-one meetings, 12 pitching companies, and over 50 speakers – including the President of BLOC, Mr. Shidan Gouran.

“I’m really happy that we’re getting to be part of this conference”, says Mr. Gouran. “As blockchain jumps past the initial hurdles of adoption, everyone is trying to understand all of the different angles of it – taking somewhat of a holistic approach. The team behind FFCON has done a great job to bring in experts from nearly every relevant area, and this is going to be an event that you don’t want to miss if you want to be part of Canada’s climb to the top of the blockchain world.”

In light of substantial changes to and developments in cryptocurrencies and the blockchain over the past year, this will be the most impactful FFCON event so far. With even greater changes and developments coming on an even larger scale, the insights that come from this event will be essential both for active blockchain participants and for entities who are just getting introduced to it.

About Global Blockchain Technologies Corp.

The Company provides investors access to a basket of direct and indirect holdings within the blockchain space, managed by a team of industry pioneers and early adopters of all major cryptocurrencies.

BLOC is listed on the Canadian Securities Exchange (“CSE”) and its common shares trade under the ticker symbol “BLOC”. Additional information relating to BLOC is available on SEDAR at www.sedar.com, the CSE at www.theCSE.com, as well as on the Company’s website at www.globalblockchain.io.

About FFCON18: VELOCITY

FFCON (Fintech and Funding Conference) is an annual conference hosted by NCFA Canada in its fourth year, with an educational objective that brings together professionals and innovators in blockchain, cryptocurrency, and alternative investing. It is being held on Monday, March 5th and Tuesday, March 6th, 2018 in downtown Toronto. The *VELOCITY* theme is all about speed, efficiency, and reducing friction; all of which are commonly shared objectives among participants in the blockchain ecosystem. Additional information about the conference can be found at www.fintechandfunding.com.

Cautionary Note Regarding Forward-Looking Information

This news release contains “forward-looking information” within the meaning of applicable securities laws. Generally, any statements that are not historical facts may contain forward-looking information, and forward-looking information can be identified by the use of forward-looking terminology such as “plans”, “expects” or “does not expect”, “is expected”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates” or “does not anticipate”, or “believes”, or variations of such words and phrases or indicates that certain actions, events or results “may”, “could”, “would”, “might” or “will be” taken, “occur” or “be achieved”. Forward-looking information includes, but is not limited to the Company’s goal of streamlining the current arduous, lengthy and complicated process that interested investors need to undergo in order to gain exposure to the cryptocurrency space with a view to becoming the first vertically integrated originator and manager of top-tier blockchains and digital currencies. The Company has no assets and its business plan is purely conceptual in nature and there is no assurance that it will be implemented as set out herein, or at all. Forward-looking information is based on certain factors and assumptions the Company believes to be

reasonable at the time such statements are made, including but not limited to: statements and expectations regarding the ability of the Company to (i) successfully engage senior management with appropriate industry experience and expertise, (ii) gain access to and acquire a basket of cryptocurrency assets and pre-ICO and ICO financings on favourable terms or at all, (iii) successfully create its own tokens and ICO's, and (iv) execute on future M&A opportunities in the cryptocurrency space; receipt of required regulatory approvals; the availability of necessary financing; permitting and such other assumptions and factors as set out herein. Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking information, including but not limited to: risks related to changes in cryptocurrency prices; the estimation of personnel and operating costs; general global markets and economic conditions; risks associated with uninsurable risks; risks associated with currency fluctuations; competition faced in securing experienced personnel with appropriate industry experience and expertise; risks associated with changes in the financial auditing and corporate governance standards applicable to cryptocurrencies and ICO's; risks related to potential conflicts of interest; the reliance on key personnel; financing, capitalization and liquidity risks including the risk that the financing necessary to fund continued development of the Company's business plan may not be available on satisfactory terms, or at all; the risk of potential dilution through the issuance of additional common shares of the Company; the risk of litigation. Although the Company has attempted to identify important factors that could cause actual results to differ materially from the forward-looking information set out in this presentation, there may be other factors that cause results not

to be as anticipated, estimated or intended. There can be no assurance that such forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward-looking information. Forward-looking statements are made based on management's beliefs, estimates and opinions on the date that statements are made and the Company undertakes no obligation to update forward-looking statements if these beliefs, estimates and opinions or other circumstances should change, except as required by laws. Investors are cautioned against attributing undue certainty to forward-looking statements.

Neither the CSE nor its Regulation Services Provider (as that term is defined in the policies of the CSE) accepts responsibility for the adequacy or accuracy of this release.
