

Golden Arrow Reports on Puna Operations

written by Raj Shah | October 12, 2018

✘ October 12, 2018 ([Source](#)) – Golden Arrow Resources Corporation (TSX-V: GRG, FSE: G6A, OTCQB: GARWF), (“Golden Arrow” or the “Company”), is pleased to announce that the Company’s joint venture partner in Puna Operations Inc., (“Puna”), has reported the third quarter 2018 production results for Puna’s Chinchillas silver-zinc-lead deposit in Argentina.

In their news release dated October 11, 2018, SSR Mining reported:

- **Continued positive performance at Puna Operations:**
Produced 0.7 million ounces of silver, more than doubled zinc production to 3.2 million pounds, and successfully test processed Chinchillas ore.

“Pre-stripping activities at the Chinchillas site continued to advance during the quarter. Approximately 2.1 million tonnes of waste and 0.3 million tonnes of ore were mined, with ore grades reconciling well to the geological model. Approximately 73,000 tonnes of ore from the Chinchillas pit were delivered to the Pirquitas site, of which approximately 39,000 tonnes were processed in two separate test runs as part of the project execution. The tests successfully validated metallurgical performance of the ore and produced saleable lead-silver and zinc concentrates.”

“We are pleased with the progress being made at Chinchillas and look forward to continued strong performance as Chinchillas ramps up to full production,” commented Joseph Grosso, Golden Arrow Chairman and CEO.
