

Goldplay Completes Private Placement

written by Raj Shah | December 13, 2018

✖ December 12, 2018 ([Source](#)) – **Goldplay Exploration Ltd. (TSXV: GPLY, OTCQB: GLYXF) (“Goldplay” or the “Company”)**, is pleased to announce that the Company has closed the final tranche of its non-brokered private placement (the “**Offering**”) previously announced on November 19, 2018 and has issued 1,244,166 units for gross proceeds of \$273,716.52. Total gross proceeds raised under all tranches of this offering was \$1,499,960.

In connection with this 2nd tranche closing, the Company paid finder’s fees totaling \$1,980 cash and issued a total of 9,000 finder’s warrants. Each finder’s warrant is exercisable for one common share at a price of \$0.25/share for two years, provided that after the four month hold period expires, if for 10 consecutive days the closing price of the Company’s shares on the TSX-V exceeds \$0.65, then the Company may anytime thereafter accelerate the expiry date of the Warrants to the date that is 10 days following the date on which the Company issues notice of the new expiry date.

All securities issued under this private placement are subject to a four month and one day hold period in accordance with applicable securities laws and the policies of the TSX Venture Exchange.

Marcio Fonseca, the Company’s President and Chief Executive Officer and Trevor Woolfe, the Company’s Vice-President of Corporate Development & Exploration, purchased 56,524 units and 136,364 units for total proceeds of \$12,457.28 and \$30,000.08 respectively. Mr. Fonseca’s and

Mr. Woolfe's participation in this private placement is considered a related party transaction subject to TSX-V Policy 5.9 and Multilateral Instrument 61-101 – *Protection of Minority Security Holders in Special Transactions*. The Company has relied on exemptions from the formal valuation and minority shareholder approval requirements provided under sections 5.5(a) and 5.7(a) of Multilateral Instrument 61-101 on the basis that the value of securities purchased by Mr. Fonseca and Mr. Woolfe under this financing did not exceed 25% of the fair market value of the Company's market capitalization.

About Goldplay Exploration Ltd.

Goldplay owns a >250 sq. km exploration portfolio in the historical Rosario Mining District, Sinaloa, Mexico. Goldplay's current exploration focus includes surface exploration and drilling, with a resource update to follow at the advanced-stage San Marcial Project and follow up exploration program at the El Habal Project.

The San Marcial land package consists of 1,250 ha, located south of the La Rastra and Plomosas historical mines and 20 km from the Company's 100% owned El Habal Project in the Rosario Mining District, Sinaloa, Mexico. San Marcial is an attractive, near-surface high-grade silver, lead and zinc project for which a historical resource estimate has been previously disclosed.

San Marcial exhibits significant exploration upside supported by regional exploration programs completed by previous operators who identified 14 exploration targets similar to San Marcial within its 100% Goldplay-owned concessions. Some of these exploration targets consist of old shallow pits, caved shafts and historical underground workings in areas with extensive hydrothermal alteration, hosted by major regional structures.

The El Habal Project is a drilling stage project. The oxidized

gold mineralized zone outcrops along a series of rolling hills with evidence of historical shallow underground mining along a 6 km long prospective corridor. The El Habal Project is located near the historical gold-silver Rosario Mine which reportedly operated for over 250 years. Goldplay's team has over 30 years of experience with senior roles in exploration, financing, and development in the mining industry, including over ten years of extensive exploration experience in the Rosario Mining District, leading to previous successful discoveries. A current NI 43-101 report on the El Habal Project is filed on SEDAR.
