**About NovoCarbon Corporation:** NovoCarbon is a Clean Technology Minerals Processing Company supplying customers with innovative, high quality value-added carbon products.

There is no significant graphite production in North America now. As pricing and demand continue to rise, NovoCarbon is one of the first new domestic suppliers to a growing regional customer base. We continually work to deliver products of the best quality with outstanding customer service.

The Company is party to an agreement for long-term supply of high quality natural graphite concentrate from Brazil. NovoCarbon is presently working with an established US-based processor for toll micronization services. The Company has partnered with Ashland Advanced Materials for commercial-scale purification operations at Ashland's 110,000 square foot purification facility located in Niagara, New York.

Through our partner relationships, NovoCarbon began selling micronized synthetic graphite beginning in 2016 and now supplies micronized and high purity micronized natural flake graphite products to a growing customer base.

Further information regarding NovoCarbon can be found on the Company's website at: [www.greatlakesgraphite.com](http://www.greatlakesgraphite.com).

NovoCarbon trades as GLKIF on the OTCQB market in the US and as GLK on the TSX Venture Exchange in Canada. There are currently 125,656,830 shares outstanding.

**Note:** The current legal name of the corporation is Great Lakes Graphite Inc., which is doing business as NovoCarbon Corporation until final approval by the shareholders and the TSX Venture Exchange.
