

Imperial Mining Files Preliminary Economic Assessment Technical Report for The Crater Lake Project On SEDAR

written by Raj Shah | July 29, 2022

July 28, 2022 ([Source](#)) – Imperial Mining Group Ltd. (“Imperial”) (TSX VENTURE: IPG; OTCQB: IMPNF) is pleased to announce that, further to its news release dated June, 13, 2022, the Company has filed a technical report detailing the Preliminary Economic Assessment of the Crater Lake Scandium-Rare Earth Project east of Schefferville, Quebec (the “PEA”).

The technical report was independently prepared for Imperial Mining Group Ltd. by WSP Canada. The report, titled “CRATER LAKE SCANDIUM PROJECT, PRELIMINARY ECONOMIC ASSESSMENT: NATIONAL INSTRUMENT(NI) 43-101 REPORT” has been filed on the Company’s profile on SEDAR at www.sedar.com as at July 28, 2022 and is also available on Imperial Mining Group’s website on the [Crater Lake Project Page](#) .

Further to its news release on June 13, 2022, the Company announced the results of this study report which concluded:

- Gross metal revenue of the minerals produced from the operation total **\$15.2 billion over the life of the operation;**
- **Gross earnings after-tax is \$6.25 billion;**
- The Project has a **pre-tax net present value (NPV) of \$2.97 billion and an after-tax NPV of \$1.72 billion (10%**

discount rate);

- Pre-tax internal rate of return (**IRR**) is **42.9%** and an after-tax IRR of **32.8%**.
- **Annual Net revenues average \$608.0 million** from the sale of high-purity scandium oxide (Sc_2O_3), scandium-aluminum Master alloy (ScAl) and rare earth element (REE) hydroxide concentrate;
- The pre-tax **capital payback is 2.5 years** from the start of production;
- Total mined metal production over a **minimum 25-year mining life** based on the present resource base is expected to be 110 t Sc_2O_3 , 57,298 t of ScAl Master alloy and 23,578 t of REE hydroxide concentrate;
- The prices and market segments were based on estimates from comprehensive market studies by Ernst Young for scandium and by Roskill Information Services for rare earths.

QUALIFIED PERSON

Mr. Pierre Guay, P. Geo, a Qualified Person under National Instrument 43-101, has reviewed and approved all technical information referred to in this press release.

This press release may contain forward-looking statements relating to the Company's operations or to its business environment. Such statements are based on the Company's operations, estimates, forecasts, and projections, but are not guarantees of future performance and involve risks and uncertainties that are difficult to predict or control. Several factors could cause actual outcomes and results to differ materially from those expressed. These factors include those set forth in the corporate filings. Although any such forward-looking statements are based upon what management believes to be reasonable assumptions, the Company cannot guarantee that actual results will be consistent with these forward-looking statements. In addition, the Company disclaims any intention or obligation to update or revise any forward-looking statements, for any reason. We also do not commit in any way to guarantee that we will continue reporting on items or issues that arise. Investors are cautioned that this press release contains quoted historical exploration results. These are derived from filed assessment reports and compiled from governmental databases. The Company and a QP have not independently verified and make no representations as to the accuracy of historical exploration results: these results should not be relied upon. Selected highlight results may not be indicative of average grades. Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
