

Largo Resources Completes Private Placement of US\$150 Million 9.25% Senior Secured Notes

written by Raj Shah | May 22, 2018

✖ May 22, 2018 ([Source](#)) – Largo Resources Ltd. (“Largo” or the “Company”) (TSX: LG0) (OTCQB: LGORF) announces the closing of its private placement offering of US\$150 million (the “Offering”) aggregate principal amount of senior secured notes due in 2021 (the “Notes”). The Notes are callable in years 2 and 3, and carry a coupon of 9.25%.

As previously announced on May 17, 2018, the net proceeds of the Offering, being approximately US\$143 million after deduction of the 2% original issue discount, fees and certain expenses of the offering, have been deposited into an escrow account in favour of the Note holders pending satisfaction of certain conditions precedent including, among other things, receipt of consent of the Brazilian National Economic and Social Development Bank (“BNDES”) for the early payment of our credit facilities with them. Upon release from escrow, the net proceeds of the Offering will be used, together with cash on hand, to repay in full Largo’s existing debts with both the BNDES and its syndicate of commercial lenders (Itau’ Unibanco S.A., Banco Votorantim S.A. and Banco Bradesco S.A.), plus accrued and unpaid interest, and to pay fees and expenses in connection therewith. Under the terms of the Offering, Largo has 180 days in which to satisfy the escrow release conditions and provide a pledge over all of the shares it holds in its operating subsidiary, Vanadio de Maracás S.A.

"We are very pleased to announce the closing of this private placement. Upon release of the proceeds from escrow, the Offering will greatly improve our capital structure and cost and will also simplify our reporting obligations," said Mark Smith, Largo's President and Chief Executive Officer. Mr. Smith continued, "With this leg of our strategy in-hand, we can now focus our efforts on our previously announced expansion project as we continue to build value for our shareholders."

This announcement does not constitute an offer to sell, or a solicitation of an offer to buy, any security and shall not constitute an offer, solicitation or sale in any jurisdiction in which such an offer, solicitation, or sale would be unlawful.

The Notes have not been and will not be registered under the Securities Act of 1933, as amended, or any state securities laws, and are being offered only to qualified institutional buyers in reliance on Rule 144A under the Securities Act and to non-U.S. persons in offshore transactions in reliance on Regulation S. Unless so registered, the Notes may not be offered or sold in the United States or to U.S. persons except pursuant to an exemption from the registration requirements of the Securities Act and applicable state securities laws.

About Largo Resources

Largo is a Toronto-based strategic mineral company focused on the production of vanadium flake, high purity vanadium flake and high purity vanadium powder at the Maracás Menchen Mine located in Bahia State, Brazil. Largo remains one of the lowest cost producers of vanadium in the world and is directly exposed to and is benefiting from the record increases in vanadium seen today. Largo is the only pure-play producer of vanadium and also has interests in a portfolio of other projects, including: a 100% interest in the Currais Novos Tungsten Tailings

Project in Brazil; a 100% interest in the Campo Alegre de Lourdes Iron-Vanadium Project in Brazil; and a 100% interest in the Northern Dancer Tungsten-Molybdenum property in the Yukon Territory, Canada. The Company's common shares are principally listed on the Toronto Stock Exchange under the symbol "LGO".
