Legislative Changes Driving Digital Cleaning Management Adoption: How Visionstate's Wanda Solution Leads the Way

written by Raj Shah | February 14, 2025 February 14, 2025 (Source) — Visionstate Corp. (TSXV: VIS). The facility management industry is undergoing a significant transformation, driven by advancements in Digital Cleaning Management Software (DCMS). Provinces like Ontario are at the forefront of this change, introducing new legislation that requires cleaning confirmations to enhance worker safety. This shift underscores the critical role of technology in ensuring compliance, efficiency, and accountability in facility maintenance.

The Growing Need for Digital Cleaning Management

With heightened regulatory requirements and an increasing focus on workplace safety, organizations must adopt innovative solutions to keep pace with industry demands. Digital Cleaning Management Software, such as Visionstate's WANDA, empowers facility managers to streamline cleaning operations, track service completion in real time, and provide verifiable proof of compliance with new health and safety standards.

"The pipeline for sales has grown significantly as more industries recognize the need for digital cleaning management solutions," said Shannon Moore, President of Visionstate IoT Inc. "WANDA was considerably ahead of its time, but we are now seeing the transformation happen as more organizations embrace the technology to improve efficiency and compliance."

Case Study: WANDA at Queen's University

Queen's University implemented WANDA to address the challenges of maintaining and documenting cleanliness in its residence facilities. By leveraging WANDA, the university was able to enhance service responsiveness, optimize cleaning schedules, and ensure that cleaning staff adhered to regulatory requirements—all while improving overall efficiency.

Key Benefits of WANDA

1. Service Alerts for Immediate Action

Facility visitors can scan QR codes to report cleaning needs, such as low supplies or spills, which are instantly relayed to the facility manager. This real-time alert system enables prompt corrective action, improving the overall cleanliness and safety of the facility.

2. Digital Scheduling for Operational Efficiency

Traditional cleaning programs often rely on manual tracking, leading to inefficiencies and gaps in accountability. With WANDA, cleaning teams follow a centralized digital schedule, marking tasks as complete in real time. Facility managers gain instant oversight, ensuring all required tasks are performed and documented.

Broad Adoption Across Key Sectors

Visionstate is seeing significant growth in the adoption of WANDA across multiple industries, including education, municipalities, and healthcare. As organizations recognize the benefits of digitized cleaning management, WANDA is becoming an essential tool for ensuring compliance, operational efficiency, and improved facility hygiene.

Adapting to a New Industry Standard

As legislative changes continue to shape the industry, implementing a robust DCMS solution like WANDA is becoming not just an advantage but a necessity. Visionstate is committed to supporting facilities through this transition, providing a comprehensive and customizable solution to meet evolving regulatory and operational needs.

About Visionstate Corp.

Visionstate Corp. (TSXV: VIS) is a growth-oriented company that invests in the research and development of promising new technology in the realm of the Internet of Things, big data and analytics, and sustainability. Visionstate IoT Inc. is a whollyowned subsidiary of Visionstate Corp. Through Visionstate IoT Inc., it helps businesses improve operational efficiencies, reduce costs, and elevate customer satisfaction with its state-of-the-art devices that track and monitor guest activities and requests. The footprint of its WANDA™ smart device now extends to hospitals, airports, shopping centres, and other public facilities across and beyond North America. Through building up a collection of synergistic technologies, Visionstate Corp. will continue to innovate, reduce environmental impact, and transform consumer experiences.

Forward-Looking Statements

Certain information set forth in this material may contain forward-looking statements that involve substantial known and unknown risks and uncertainties. All statements other than statements of historical fact are forward-looking statements, including, without limitation, statements regarding future financial position, business strategy, use of proceeds, corporate vision, proposed acquisitions, partnerships, jointventures and strategic alliances and co-operations, budgets, cost and plans and objectives of or involving the Company. Such forward-looking information reflects management's current beliefs and is based on information currently available to management. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "predicts", "intends", "targets", "aims", "anticipates" or "believes" or variations (including negative

variations) of such words and phrases or may be identified by statements to the effect that certain actions "may", "could", "should", "would", "might" or "will" be taken, occur or be achieved. A number of known and unknown risks, uncertainties and other factors may cause the actual results or performance to materially differ from any future results or performance expressed or implied by the forward-looking information. These forward-looking statements are subject to numerous risks and uncertainties, certain of which are beyond the control of the Company including, but not limited to, the impact of general economic conditions, industry conditions and dependence upon regulatory approvals. Readers are cautioned that the assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be imprecise and, as such, undue reliance should not be placed on forwardlooking statements. The Company does not assume any obligation to update or revise its forward-looking statements, whether as a result of new information, future events, or otherwise, except as required by securities laws.
