

# Moovly Partners With DAM Solution Provider Widen to Offer Enterprises Brand-Aligned Video Creation Solutions

written by Raj Shah | July 19, 2022

July 19, 2022 ([Source](#)) – Moovly Media Inc. (TSXV: MVY) (OTCQB: MVVYF) (FSE: 0PV2) (“Moovly” or the “Company”) is pleased to announce a partnership with Widen, an Acquia company specializing in digital asset management (DAM) and product information management (PIM) software.

Widen’s DAM system helps organizations manage all of their brand, marketing, and product content, such as images, audio files, and videos. Through this new integration, companies will now have access to these digital assets within Moovly, enabling them to seamlessly create new videos that are fully aligned with company brand guidelines. Additionally, the two companies signed a partnership agreement that will allow many more corporations to take advantage of both Moovly’s and Widen’s integrated solutions.

Geert Coppens, co-founder and CTO of Moovly, commented: “As both Widen and Moovly offer an API, our integrated solution enables enterprises to leverage their company media assets to easily create new video content for communication, marketing, or training. This new partnership illustrates our commitment to integrate and partner with leading companies to strengthen our offering in the market and add value to our platform.”

“This partnership with Moovly supports our goal to make cloud-based digital asset management more efficient for everyone,” said Jamie Liechty, Senior Partner Manager at Widen. “Moovly’s powerful, yet user-friendly video creation capabilities are an impressive addition to Widen’s integration options – and will help customers maximize the value of their martech stack.”

One of the first enterprise customers to take advantage of this new partnership and integration is Atradius, a global provider of credit insurance, bond and surety, collections, and information services. Atradius employees are now able to easily create brand-aligned videos using Widen assets within their customized Moovly video creation platform.

“We have staff around the world creating videos using Moovly, so it just made sense to give them access to digital assets on our Atradius BrandHub (Widen DAM). The API integration was quick and easy, it’s now a seamless process for staff to view and download what they need,” said Dirk Hagener, Director, Group Marketing and Communication, Atradius.

We look forward to helping other brands with their video and DAM needs. For more information, please visit [www.moovly.com](http://www.moovly.com) and [www.widen.com](http://www.widen.com).

## **About Acquia**

Acquia empowers the world’s most ambitious brands to create digital customer experiences that matter.
