

Nord Announces MCTO Status Update

written by Raj Shah | June 11, 2025

June 11, 2025 ([Source](#)) – Nord Precious Metals Mining Inc., (TSXV: NTH) (OTCQB: CCWOF) (Frankfurt: 4T9B) (the “Company” or “Nord”), today provides a bi-weekly default status update further to the Company’s press release dated May 1, 2025 (the “**Announcement**”) concerning the delay of the filing of its annual financial statements in respect of its year ended December 31, 2024, its management discussion and analysis relating to its annual financial statements, and the CEO and CFO certifications (collectively, the “**Required Documents**”), beyond the prescribed deadline of June 30, 2025.

As previously announced, the Company was granted an MCTO by the British Columbia Securities Commission.

The MCTO will stay in effect until the Required Documents are filed and the Company intends to satisfy the provisions of the alternative information guidelines in accordance with National Policy 12-203 – *Management Cease Trade Orders* (“**NP 12-203**”) by issuing bi-weekly default status reports in the form of news releases until the situation is satisfactorily rectified.

The Company confirms that since the date of the Announcement, (a) other than as described herein, there have been no changes to the information contained in the Announcement that would reasonably be expected to be material to shareholders, (b) there have been no failure by the Company in fulfilling its stated intentions with respect to satisfying the provisions of the alternative information guidelines as set out in NP 12-203,

(c) there has not been any other subsequent specified default by the Company following the Announcement under NP 12-203, and (d) there is no other material information concerning the affairs of the Company that has not been generally disclosed.

The Company's management, together with its audit committee, has been working diligently with its auditor to provide all necessary information and complete the Required Documents. The Company confirms that it will continue to satisfy the provisions of the alternative information guidelines under NP 12-203 by issuing bi-weekly default status reports in the form of news releases for so long as it remains delayed in filing the Required Documents.

About Nord Precious Metals Mining Inc.

Nord Precious Metals Mining Inc. operates the only permitted high-grade milling facility in the historic Cobalt Camp of Ontario, where the Company has established a unique position integrating high-grade silver discovery with strategic metals recovery operations. The Company's flagship Castle property encompasses 63 sq. km of exploration ground and the past-producing Castle Mine, complemented by the Castle East discovery where drilling has delineated 7.56 million ounces of silver in Inferred resources grading an average of 8,582 g/t Ag (250.2 oz/ton).

Nord's integrated processing strategy leverages the synergistic value of multiple metals. High-grade silver recovery supports the economics of extracting critical minerals including cobalt, nickel, and other battery metals, while the company's proprietary Re-20x hydrometallurgical process enables production of technical-grade cobalt sulphate and nickel-manganese-cobalt (NMC) formulations. This multi-metal approach, combined with

established infrastructure including TTL Laboratories and underground mine access, positions Nord to capitalize on both precious metals markets and the growing demand for battery materials.

The Company maintains a strategic portfolio of battery metals properties in Northern Quebec including its 35% ownership in Coniagas Battery Metals Inc. (TSXV: COS) as well as the St. Denis-Sangster lithium project comprising 260 square kilometers of prospective ground near Cochrane, Ontario.
