

Nord Precious Metals Closes First Tranche of Non-Brokered Private Placement and Announces Additional Private Placements

written by Raj Shah | March 26, 2025

March 26, 2025 ([Source](#)) – Nord Precious Metals Mining Inc. (TSX.V: NTH) (OTCQB: CCWOF) (FRANKFURT: 4T9B) (the “Company” or “Nord”) announces that the Company has closed the first tranche of a non brokered private placement financing by issuing 2,906,666 units (“Units”) at a price of \$0.12 per Unit raising gross proceeds of \$348,800. The Company also announces that it plans to issue up to an additional 8,333,333 Units at a price of \$0.12 per Unit raising gross proceeds of up to \$1,000,000 in the coming weeks.

Each Unit is comprised of one common share of the Company and one share purchase warrant. Each whole warrant will entitle the holder thereof to purchase one additional common share of the Company at an exercise price of \$0.155 per share, for a period of five years from closing, subject to TSX Venture Exchange (“Exchange”) final approval. Finder’s fees may be paid in the next closing and are also subject to Exchange approval.

The Company further announces a non brokered private placement financing of 1,875,000 flow-through units (“FT Units”) at a price of \$0.16 per FT Unit raising gross proceeds of \$300,000. Finder’s fees will be paid in cash and warrants in connection with the FT private placement. The finder warrants are at an exercise price of \$0.20 per share for a period of two years from

closing.

Each FT Unit is comprised of one common share of the Company and one share purchase warrant. Each whole warrant will entitle the holder thereof to purchase one additional common share of the Company at an exercise price of \$0.20 per share, for a period of two years from closing, subject to TSX Venture Exchange approval.

All securities issued in connection with the Units and the FT Units are subject to a four-month and a day hold period in accordance with applicable Canadian Securities laws.

The proceeds of the Unit private placement will be used for exploration on its Castle East Project, Gowganda, Ontario and for general working capital and administrative costs.

Proceeds from the FT Unit private placement will be used for exploration on its Castle East Project, Gowganda, Ontario.

About Nord Precious Metals Mining Inc.

Nord Precious Metals Mining Inc. operates the only permitted high-grade milling facility in the historic Cobalt Camp of Ontario, where the Company has established a unique position integrating high-grade silver discovery with strategic metals recovery operations. The Company's flagship Castle property encompasses 63 sq. km of exploration ground and the past-producing Castle Mine, complemented by the Castle East discovery where drilling has delineated 7.56 million ounces of silver in Inferred resources grading an average of 8,582 g/t Ag (250.2 oz/ton).

Nord's integrated processing strategy leverages the synergistic value of multiple metals. High-grade silver recovery supports the economics of extracting critical minerals including cobalt, nickel, and other battery metals, while the company's

proprietary Re-20x hydrometallurgical process enables production of technical-grade cobalt sulphate and nickel-manganese-cobalt (NMC) formulations. This multi-metal approach, combined with established infrastructure including TTL Laboratories and underground mine access, positions Nord to capitalize on both precious metals markets and the growing demand for battery materials.

The Company maintains a strategic portfolio of battery metals properties in Northern Quebec including its 35% ownership in Coniagas Battery Metals Inc. (TSXV: COS) as well as the St. Denis-Sangster lithium project comprising 260 square kilometers of prospective ground near Cochrane, Ontario.
