If attendees are not able to join the event live on the day of the conference, an archived webcast will also be made available on EmergingGrowth.com and on the Emerging Growth YouTube Channel, <http://www.YouTube.com/EmergingGrowthConference>. We will release a link to that after the event.

The Company is currently performing its own investor relations activities. For further information regarding the Company's investor relations arrangements, including its agreements with RedChip Companies, Inc. and Emerging Growth Research, LLC (each subject to acceptance by the TSX Venture Exchange), please refer to the Company's [news release dated June 4, 2026](#).

About the Emerging Growth Conference

The Emerging Growth Conference is an effective way for public companies to present and communicate their new products, services and other major announcements to the investment community from the convenience of their office, in a time-efficient manner.

The Conference focus and coverage includes companies in a wide range of growth sectors, with strong management teams, innovative products and services, focused strategy, execution, and the overall potential for long-term growth. Its audience includes potentially tens of thousands of individual and institutional investors, as well as investment advisors and analysts.

All sessions will be conducted through video webcasts and will take place in the Eastern time zone.

About Nord Precious Metals Mining Inc.

Nord Precious Metals Mining Inc. operates TTL Laboratories, the only permitted high-grade milling facility in the historic Cobalt Camp of Ontario. The Company's 63 sq. km flagship Castle property, with the addition of 225 hectares of leases, now hosts three of the five most productive past-producing silver mines in the Gowganda Camp (see January 5, 2026 acquisition release). The Castle East discovery hosts a historical Inferred Mineral Resource of 7.56 million ounces of silver grading 8,582 g/t Ag (250.2 oz/ton) in 27,400 tonnes of material from two sections (1A and 1B) of the Castle East Robinson Zone, beginning at a vertical depth of approximately 400 metres (NI 43-101 Technical Report, effective May 28, 2020). Mineral resources that are not mineral reserves do not have demonstrated economic viability. The above resource is considered a historical resource; a qualified person has not done sufficient work to classify it as a current mineral resource.
