About Nova Leap

The Home Care Providers industry is becoming one of the fastest growing healthcare industries in Canada and the United States. Home care saves patients billions of dollars every year by treating them in their own homes instead of in hospitals. An aging population, the prevalence of chronic disease, growing physician acceptance of home care, medical advancements and a movement toward cost-efficient treatment options from public and private payers have all fostered industry growth. Nova Leap is focused on a highly fragmented market of small privately-held companies providing patients one on one care in their homes. Nova Leap’s post-acquisition organic growth strategy is to increase annual revenue per location through a combination of increased employee investment, including training, focused sales and marketing efforts, billing rate increases, expansion of geographical coverage, and improved referral sources.

FORWARD LOOKING INFORMATION:

Certain information in this press release may contain forward-looking statements, such as statements regarding the completion of the second tranche of the brokered private placement, the anticipated use of the proceeds from the first tranche of the Private Placements and the second tranche of the brokered private placement, and the increase in the Company's recurring client service hours and annualized recurring revenue.
