

# Power Nickel to Present at the Emerging Growth Conference on Wednesday, May 25, 2022

written by Raj Shah | May 24, 2022

***Power Nickel Invites Individual and Institutional Investors As Well as Advisors and Analysts, To Attend Its Real-Time, Interactive Presentation at the Emerging Growth Conference***

May 24, 2022 ([Source](#)) – Power Nickel Inc. (the “Company”) (TSXV:PNPN)(OTCQB:CMETF)(FRA:IVVI) is pleased to announce that it has been invited to present at the Emerging Growth Conference on **Wednesday, May 25, 2022**

The next Emerging Growth Conference is presented on **Wednesday, May 25, 2022**. This live, interactive online event will give existing shareholders and the investment community the opportunity to interact with the Company’s CEO Terry Lynch in real-time.

Mr. Lynch will be talking about recent developments in Power Nickel’s ongoing exploration of the High-Grade Nisk Nickel Project near James Bay Quebec. Power Nickel is expected to release an updated 43-101 on Nisk sometime in Q2. Mr. Lynch will be discussing this at the presentation and open the floor for questions. Please ask your questions during the event and Mr. Lynch will do his best to get through as many of them as possible.

Power Nickel will be presenting at 10:45 AM Eastern time for 30 minutes.

Please register here to ensure you are able to attend the conference and receive any updates that are

released. [https://goto.webcasts.com/starthere.jsp?ei=1541770&tp\\_key=bb5f3aef5f&sti=cmetf](https://goto.webcasts.com/starthere.jsp?ei=1541770&tp_key=bb5f3aef5f&sti=cmetf)

If attendees are not able to join the event live on the day of the conference, an archived webcast will also be made available on [EmergingGrowth.com](https://emerginggrowth.com) and we will also release a link to that after the event.

### **About the Emerging Growth Conference**

The Emerging Growth conference is an effective way for public companies to present and communicate their new products, services, and other major announcements to the investment community from the convenience of their office, in a time-efficient manner.

The Conference focus and coverage include companies in a wide range of growth sectors, with strong management teams, innovative products & services, focused strategy, execution, and the overall potential for long-term growth. Its audience includes potentially tens of thousands of Individual and Institutional investors, as well as Investment advisors and analysts.

All sessions will be conducted through video webcasts and will take place in the Eastern time zone.

### **About Power Nickel Inc.**

Power Nickel is a Canadian junior exploration company focusing on high-potential copper, gold, and battery metal prospects in Canada and Chile.

On February 1, 2021, Power Nickel (then called Chilean Metals) completed the acquisition of its option to acquire up to 80% of the Nisk project from Critical Elements Lithium Corp. (CRE:TSXV)

The NISK property comprises a large land position (20 kilometers of strike length) with numerous high-grade intercepts. Power Nickel, formerly Chilean Metals is focused on confirming and expanding its current high-grade nickel-copper PGE mineralization historical resource by preparing a new Mineral Resource Estimate in accordance with NI 43-101, identifying additional high-grade mineralization, and developing a process to potentially produce nickel sulphates responsibly for batteries to be used in the electric vehicles industry.

Power Nickel (then called Chilean Metals) announced on June 8<sup>th</sup>, 2021 that an agreement has been made to complete the 100% acquisition of its Golden Ivan project in the heart of the Golden Triangle. The Golden Triangle has reported mineral resources (past production and current resources) in a total of 67 million ounces of gold, 569 million ounces of silver, and 27 billion pounds of copper. This property hosts two known mineral showings (gold ore and magee), and a portion of the past-producing Silverado mine, which was reportedly exploited between 1921 and 1939. These mineral showings are described to be Polymetallic veins that contain quantities of silver, lead, zinc, plus/minus gold, and plus/minus copper.

Power Nickel is the 100-per-cent owner of five properties comprising over 50,000 acres strategically located in the prolific iron-oxide-copper-gold belt of northern Chile. It also owns a 3-per-cent NSR royalty interest on any future production from the Copaquire copper-molybdenum deposit, recently sold to a subsidiary of Teck resources Inc. Under the terms of the sale agreement, Teck has the right to acquire one-third of the 3-per-cent NSR for \$3-million at any time. The Copaquire property borders Teck's producing Quebrada Blanca copper mine in Chile's first region.

*Cautionary Note Regarding Forward-Looking Statement*

This news release may contain certain statements that may be deemed “forward-looking statements”. All statements in this release, other than statements of historical fact, that address events or developments that PNP expect to occur, including details related to the proposed spin-out transactions, are forward-looking statements. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words “expects”, “plans”, “anticipates”, “believes”, “intends”, “estimates”, “projects”, “potential” and similar expressions, or that events or conditions “will”, “would”, “may”, “could” or “should” occur. Forward-looking statements in this document include statements regarding current and future exploration programs, activities, and results. Although PNP believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in forward-looking statements. Factors that could cause the actual results to differ materially from those in forward-

looking statements include market prices, exploitation and exploration success, continued availability of capital and financing, inability to obtain required regulatory or governmental approvals, and general economic, market, or business conditions. Investors are cautioned that any such statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward-looking statements. Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accept responsibility for the adequacy or accuracy of this release.
