

Predictiv AI Secures Purchase Orders for Thermalpass from Multiple Market Segments

written by Raj Shah | December 11, 2020

December 11, 2020 ([Source](#)) – **Predictiv AI Inc.** (TSX-V: PAI) (OTC: INOTF) (FSE: 71TA) (“**Predictiv AI**” or the “**Company**”), a software and solutions provider in the artificial intelligence markets, is pleased to provide an update on the sales and production of ThermalPass, its sensor-based temperature screening system.

Predictiv AI Secures Purchase
Orders for Thermalpass from

Multiple Market Segments (CNW Group/Predictiv AI Inc.)

Over the past two weeks, the Company has received orders for twenty-eight ThermalPass units which are scheduled to be installed before the end of this month. The majority of these units were ordered by a Canadian provincial government, U.S. public schools and several hospitals. In conjunction with these sales and other pending orders, production and assembly of the ThermalPass Portable (US\$6,900) and ThermalPass Pro (US\$7,300) is ramping up, and new field assemblers are currently being organized to expand manufacturing capacity.

“We are very excited with the initial bookings as they represent verticals that are innately scalable,” said Michael Lende, President and CEO of Predictiv AI. “We are also cognizant and encouraged that these orders are formative in nature and have the potential to be significantly upsized. In tandem with our reseller agents, the ThermalPass sales focus has been targeting the most scalable sectors, and we are now getting traction in some of the largest market segments, including hospitals, schools, and long-term care facilities among others. We continue to actively market ThermalPass with multiple demos daily across Canada, the US and internationally.”

The Company is not making any express or implied claims that its product has the ability to eliminate, cure or contain the COVID-19 (or SARS-2 coronavirus) at this time.
