

# Resouro Strategic Metals' Christopher Eager to Spotlight Brazil's Tiros Titanium–Rare Earths Project at CMI Summit IV

written by Raj Shah | May 9, 2025

TORONTO, ONTARIO – May 9, 2025 – The Critical Minerals Institute (CMI) is pleased to announce that Christopher Eager, Executive Chairman of [Resouro Strategic Metals Inc.](#) (ASX: RAU | TSXV: RSM | OTCQB: RSGOF | FSE: 8TX), will present “The Tiros Project: A Strategic Titanium and Rare Earths Prospect in Brazil” on Tuesday, May 13 (1:35 – 1:50 PM ET) during CMI Summit IV at The National Club in Toronto. Christopher Eager will return the following day to join Panel 07, “The Global Quest for Critical Minerals – Spotlight on Brazil” (12:50 – 1:40 PM ET), where he will discuss Brazil's emerging role in secure supply chains alongside industry leaders Constantine Karayannopoulos (retired former CEO of Neo Performance Materials Inc. and former Chairman of Neo Lithium Corp.), Stuart Gale (CEO & Managing Director, Meteoric Resources NL), and Stephen Burega (Executive Director, Homerun Resources Inc.).

A mining engineer turned company-builder, Christopher Eager has three decades of success in advancing large-scale resources from discovery to major-company exits. Since relocating to Brazil in 2016, he has steered Resouro's flagship Tiros deposit in Minas Gerais to a JORC-compliant 1.9-billion-tonne resource (measured, indicated and inferred) averaging ~4,000 ppm total rare-earth oxides (TREO) and 12 % TiO<sub>2</sub>, with a near-surface high-grade core

of up to 9,100 ppm TREO and 23 % TiO<sub>2</sub>. Under Brazil's "MagBras" initiative, Resouro is fast-tracking a tailings-free flowsheet that targets > 90 % recovery of magnet metals (NdPrDy) and titanium, positioning Tiros as a cornerstone non-Chinese source of critical minerals.

"Brazil combines world-class rare earths, abundant titanium and a regulatory framework that rewards responsible development," Eager said. "Our goal is to move Tiros from resource to demonstration plant within the current permitting cycle, delivering magnet-grade oxides and pigment-grade titanium feedstock years sooner than traditional projects."

Tracy Hughes, Founder & Executive Director of CMI, added: "Christopher pairs on-the-ground technical rigor with capital-markets discipline, making him an ideal speaker for this year's aptly themed CMI Summit, 'The War for Critical Minerals and Capital Resources.' His insights into Brazil's critical minerals renaissance will give delegates a clear roadmap for translating vast geological potential into bankable, Western-controlled supply."

#### **CMI Summit IV Event Details**

**Theme:** *The War for Critical Minerals and Capital Resources*

**Dates:** Tuesday & Wednesday, May 13–14, 2025

**Summit Hours:** 8:30 AM – 5:00 PM ET

*Registration & coffee:* 7:30 – 8:30 AM

**Reception:** Tuesday, May 13, 5:00 – 6:30 PM – hosted by **ArcStone Securities and Investment Corp.**

**Location:** The National Club, 303 Bay Street, Toronto, Ontario, Canada

## **About Resouro Strategic Metals Inc.**

Resouro Strategic Metals Inc. (ASX: RAU) (TSXV: RSM) (OTCQB: RSGOF) (FSE: 8TX) is a Canadian-based mineral exploration and development company focused on the discovery and advancement of economic mineral projects in Brazil, including the Tiros Titanium and Rare Earth Elements [\[AL2\]](#) Project and the Novo Mundo Gold project. The Tiros Project has 28 mineral concessions totalling 497 km<sup>2</sup> in the state of Minas Gerais, on the the best infrastructurally developed states in Brazil, 350 km from the state capital of Belo Horizonte. Resouro holds, via its wholly owned Brazilian subsidiary, a 90 % interest in the Tiros Project; the remaining 10 % interest is held by RBM Consultoria Mineral Eireli, an unrelated third-party vendor. The Novo Mundo Project is located in the Alta Floresta Gold Province near the northern border of Mato Grosso, central Brazil, and comprises three exploration permits. The Company also holds an interest in the Santa Angela Project, which is not considered material to its operations. Interests in the Novo Mundo and Santa Angela Projects are held via the Company's wholly owned subsidiary.

## **About the Critical Minerals Institute**

The Critical Minerals Institute (CMI) is a trusted global leader in connecting companies, capital markets, and experts in the critical minerals industry. By combining in-depth research, thought leadership, and extensive industry expertise, CMI provides exclusive insights, invaluable resources, and robust networking opportunities that empower its members to thrive in a rapidly evolving global marketplace. Through collaboration with businesses, governments, and other stakeholders, CMI addresses both the challenges and opportunities within the critical minerals sector, highlighting the value, sustainability, and strategic importance of these essential materials. As a result, CMI ensures its members are equipped to drive innovation, lead in cutting-edge technology, and fuel industrial advancement

worldwide.
