

Rockland Resources Announces Appointment of Beryllium Expert Phil Sabey to Advisory Board

written by Tracy Hughes | July 9, 2025

Vancouver, British Columbia, July 9th, 2025 ([Source](#)), Rockland Resources Ltd. (the “Company” or “Rockland”) (CSE: RKL) (OTCQB: BERLF) (FSE: GB2), an exploration company focussed on advancing its strategic beryllium projects in Utah, is pleased to welcome Mr. Phil Sabey to its Advisory Board.

Phil Sabey is a chemistry graduate from Utah State University with over three decades of experience in the metals and mining industry, including uranium recovery in Blanding, Utah and five years with Kennecott at their Bingham copper operations. He dedicated more than 34 years to Brush Wellman (now Materion Corporation) at its Utah Operations, where he specialized in the extraction of beryllium from both bertrandite and beryl ores. As Manager of Technology and Quality at Materion, Phil oversaw the critical processes and innovations in beryllium production. He is also a contributing author to several technical publications related to beryllium processing, global beryllium reserves, and the health implications of beryllium exposure.

Phil comments, “Rockland has positioned itself both strategically and geographically relative to the beryllium deposits presently being exploited by Materion. I look forward to working with the Rockland team to ensure that value is optimized for their projects.”

Will Rascan, President of Rockland states, “Phil brings a wealth

of knowledge and experience to Rockland. As newcomers to the beryllium space, we are keenly aware of the future applications of this critical metal in the clean energy industry. With Mr. Chris Dorn of Be4Fusion also on our Advisory Board, we have created a unique team with the skills needed to advance our assets into the global beryllium market.”

Chris Dorn, Technical Advisor to Rockland and founder of Be4FUSION LLC comments, “I had the pleasure of working directly with Phil during my 28+years at Materion, and am well aware of the significant skills that he brings to the table at Rockland. Beryllium will play a crucial role in clean energy in the 21st century, and Phil will help to optimize value in our beryllium projects at Rockland.”

The Company also announces it has set 150,000 options to Mr. Sabey and 800,000 options to officers, directors and consultants at \$0.11 for a period of two years in accordance with the Company’s stock option plan.

About Beryllium

Beryllium is a high-value, essential, light metal with wide applications in the aerospace, computer, telecommunications, electronics, medical, satellite, energy and defense sectors and is considered a critical mineral by the US government.

About Rockland Resources Ltd. – Exploring For Tomorrow’s Technology

Rockland Resources Ltd. (CSE: RKL) (OTCQB: BERLF) (FSE: GB2) is advancing critical minerals exploration and is specializing in beryllium at its strategically located Meteor, Beryllium Butte and Claybank projects in the Spor Mountain region of Utah, USA. Spor Mountain is home to Materion’s (NYSE: MTRN) Spor Mountain Mine, the largest beryllium producer in the world and

continuously mined since 1969. The Company also has the 100%-owned Cole Gold Mines Project, located in the western portion of the prolific Red Lake gold district of Ontario.
