

Rockland Resources Begins Trading on OTCQB (BERLF) and Frankfurt Exchange (GB2)

written by Raj Shah | April 22, 2025

April 22, 2025 ([Source](#)) – Rockland Resources Ltd. (the “Company” or “Rockland”) (**CSE: RKL**) (**OTCQB: BERLF**) (**FSE: GB2**), announces common shares in the Company have successfully begun trading on the OTCQB Venture Market in the United States under the new trading symbol BERLF, as well as on the Frankfurt Stock Exchange under the symbol GB2, effective immediately. The company will continue to trade on the Canadian Securities Exchange.

Mike England, Rockland CEO states, “Listing Rockland’s common shares on both the OTCQB and the Frankfurt Stock Exchange significantly expands our visibility and accessibility to a broader investor base. These listings provide valuable exposure to U.S. and European markets, allowing us to engage with a vastly increased audience of institutional and retail investors.”

OTCQB Venture Market

The OTCQB Venture Market provides an established platform for early-stage and growth companies to enhance their visibility in the U.S. market. Companies listed on OTCQB must meet rigorous reporting standards, undergo annual verification and comply with management certification requirements, providing investors with a trusted market for trading.

Frankfurt Stock Exchange

The Frankfurt Stock Exchange (FSE), run by Deutsche Börse AG, ranks among the world’s largest securities trading platforms and

serves as a major financial center for both European and global investors. In 2024, it facilitated around \$2 trillion in trading volume, reinforcing its position as one of the most liquid and active exchanges worldwide. Its global reach allows companies to connect with institutional and retail investors alike, while its strong domestic presence offers a strategic advantage for firms operating in Germany – a market of over 80 million people.

About Rockland Resources Ltd. – Exploring For Tomorrow's Technology

Rockland Resources Ltd. (CSE: RKL) (OTCQB: BERLF) (FSE: GB2) is advancing critical minerals exploration and is specializing in beryllium at its strategically located Meteor, Beryllium Butte and Claybank projects in the Spor Mountain region of Utah, USA. Spor Mountain is home to Materion's (NYSE: MTRN) Spor Mountain Mine, the largest beryllium producer in the world and continuously mined since 1969. About Beryllium

Beryllium is a high-value, essential, light metal with wide applications in the aerospace, computer, telecommunications, electronics, medical, satellite, energy and defence sectors and is considered a critical mineral by the US government.
