“On behalf of the company, I would like to thank Mr. Schrader for his efforts and contributions during his tenure at Scythian. We wish him the best in his future endeavors,” said Jonathan Gilbert, CEO.

About Scythian Biosciences Corp.

Scythian is a research and development company committed to advancing prevention and treatment efforts for concussion and traumatic brain injury with its proprietary cannabinoid-based combination drug therapy.

Scythian's mission is to be the first accepted drug regimen for the treatment of concussion. Scythian is partnered with the University of Miami and its neuroscientific team to conduct pre-clinical and clinical trials of its drug regimen. Through the Company's collaborative efforts with the university, Scythian has access to the university's extensive network of experts in the fields of traumatic brain injury and concussion. These connections provide Scythian with the ability to conduct its clinical studies at world-class facilities by widely recognized medical professionals.

Scythian has initiated its international expansion by launching additional cannabis-related activities across the globe. These significant endeavours complement the Company's research and development efforts to enhance the many medical applications of cannabis.

Scythian is evaluating several strategic initiatives and pursuing partnerships with local cultivators, pharmaceutical import and distribution entities and universities in North America, South America, the Caribbean and beyond. This comprehensive approach positions Scythian as a potential global frontrunner in the research and development of medical cannabis.
