

Signature Resources Announces Closing of First Tranche of Private Placement and Lingside Claims Purchase

written by Raj Shah | June 26, 2018

✘ June 25, 2018 ([Source](#)) – Signature Resources Ltd. (TSXV:SGU) (OTCQB:SGGTF) (“**Signature**” or the “**Company**”) is pleased to announce that further to its press release of May 15, 2018, today it closed the first tranche (the “**First Tranche**”) of a non-brokered private placement of up to \$1,500,000 (the “**Financing**”) for gross proceeds of \$600,000 by issuing 5,000,000 non-flow through units (“**NFT Units**”). No finders’ fees were issued in conjunction with the closing of the First Tranche. The Company intends to close on additional tranches for up to another \$900,000.

The Financing consists of NFT Units at a price of \$0.12 per NFT Unit, and flow-through unit (the “**FT Unit**”) at a price of \$0.14 per FT Unit. Each NFT Unit consists of one common share of the Company and one warrant (a “**Warrant**”). Each FT Unit will consist of one flow-through common share and one-half of one Warrant. Each whole Warrant will entitle the holder thereof to acquire an additional common share (a “**Warrant Share**”) of the Company at an exercise price of \$0.25 per Warrant Share for a period of 2 years from the date of issuance, provided that if after four (4) months and one (1) day following the closing of the Financing, the closing price of the Company’s common shares on the TSX Venture Exchange is equal to or greater than \$0.40 for 10 consecutive trading days, then the Company may accelerate the expiry date of the Warrants by disseminating a press release and

in such case the Warrants will expire on the 30th day after the date on which such press release is disseminated by the Company.

Proceeds of this Financing will be used to further finance the Company's prospecting, drilling and other exploration and development expenses and activities and for general corporate purposes.

Securities issued pursuant to the first tranche closing of the Financing are subject to a statutory four-month plus one day hold period, which will expire on October 26, 2018.

This press release does not constitute an offer to sell or the solicitation of an offer to buy these securities, nor shall it constitute an offer, solicitation or sale in any jurisdiction in which such offer, solicitation or sale is unlawful. These securities have not been, and will not be, registered under the United States Securities Act of 1933, as amended, or any state securities laws, and may not be offered or sold in the United States or to U.S. persons unless registered or exempt therefrom.

The Company is also pleased to announce the closing of the Lingside Property (the "**Property**") as announced on May 15, 2018, under which it has issued 5,000,000 common shares of the Company at a deemed issue price of \$0.12 per common share for aggregate consideration of \$600,000, and granted to the vendor a 3% net smelter returns royalty applicable to minerals produced from the Property. Shares issued pursuant to the Lingside claims acquisition are subject to a statutory four-month plus one day hold period, which will expire on October 26, 2018.

About Signature

The Lingman Lake gold property consists of four free hold patented claims and 762 single cell staked claims, comprising 15,096.3 hectares. The property hosts an historic estimate of

234,684 oz of gold* (1,063,904 tonnes grading 6.86 g/t with 2.73 gpt cut-off) and includes what has historically been referred to as the Lingman Lake Gold Mine, an underground substructure consisting of a 126.5-meter shaft, and 3-levels at 46-meters, 84-meters and 122-meters depths.

*This historical resource estimate is based on prior data and reports obtained and prepared by previous operators, and information provided by governmental authorities. A Qualified Person has not done sufficient work to verify the classification of the mineral resource estimates in accordance with current CIM categories. The Company is not treating the historical estimate as a current NI 43-101-compliant mineral resource estimate. Establishing a current mineral resource estimate on the Lingman Lake deposit will require further evaluation, which the Company and its consultants intend to complete in due course. Additional information regarding historical resource estimates is available in the technical report entitled, "Technical Report on the Lingman Lake Property" dated December 20, 2013, prepared by Walter Hanych, P.Geo., and Frank Racicot, P.Geo., available on the Company's SEDAR profile at www.sedar.com

Cautionary Notes

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this news release.

This news release contains forward-looking statements which are not statements of historical fact. Forward-looking statements include estimates and statements that describe the Company's future plans, objectives or goals, including words to the effect that the Company or management expects a stated condition or result to occur. Forward-looking statements may be identified by

such terms as "believes", "anticipates", "expects", "estimates", "may", "could", "would", "will", or "plan". Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Although these statements are based on information currently available to the Company, the Company provides no assurance that actual results will meet management's expectations. Risks, uncertainties and other factors involved with forward-looking information could cause actual events, results, performance, prospects and opportunities to differ materially from those expressed or implied by such forward-looking information. Forward looking information in this news release includes, but is not limited to, the completion, proceeds, and use of proceeds of the Financing, the Company's objectives, goals or future plans, statements, exploration results, potential mineralization, the estimation of mineral resources, exploration and mine development plans, timing of the commencement of operations and estimates of market conditions. Factors that could cause actual results to differ materially from such forward-looking information include, but are not limited to changes in general economic and financial market conditions, failure to identify mineral resources, failure to convert estimated mineral resources to reserves, the inability to complete a feasibility study which recommends a production decision, the preliminary nature of metallurgical test results, delays in obtaining or failures to obtain required governmental, environmental or other project approvals, political risks, inability to fulfill the duty to accommodate First Nations and other indigenous peoples, uncertainties relating to the availability and costs of financing needed in the future, changes in equity markets, inflation, changes in exchange rates, fluctuations in commodity prices, delays in the development of projects, capital and operating costs varying significantly from estimates and the other risks involved in the mineral

exploration and development industry, and those risks set out in the Company's public documents filed on SEDAR. Although the Company believes that the assumptions and factors used in preparing the forward-looking information in this news release are reasonable, undue reliance should not be placed on such information, which only applies as of the date of this news release, and no assurance can be given that such events will occur in the disclosed time frames or at all. The Company disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, other than as required by law.
