

# Siyata Mobile Receives \$400K Purchase Order from Leading Two-Way Radio Vendor

written by Raj Shah | April 12, 2018

April 12, 2018 ([Source](#)) – Siyata Mobile Inc. (the “Company” or “Siyata”) (TSX-V:[SIM](#)) (OTCQX:SYATF) is pleased to announce that it has received a \$400K Purchase Order (“PO”) from a world leading two-way radio vendor for its connected in-

vehicle cellular devices.

Marc Seelenfreund, CEO and Chairman of Siyata Mobile, commented, “We are now seeing major adoption of our 4G product portfolio with multiple customers purchasing our commercial vehicle and rugged mobile devices. Our strategy to replace aging two-way radio systems with cellular based Push-to-Talk solutions remains extremely relevant in the rapidly changing landscape of converting analog systems, such as two-way radios, to more advanced and robust cellular based systems such as PTT. We have yet to encounter any direct competitors with the dedicated in-vehicle features such as our UV350 and we are confident our experience gives us significant advantage of what we believe is a paradigm shift within the transportation industry.”

According to the U.S. Department of Transportation, in 2015 there were over 12 million fleet vehicles in the United States. Siyata aims to be the leading provider of connected vehicle and mobile hardware solutions as these commercial fleets upgrade their communication platforms to be compatible with next-generation networks, PoC (proof of concept) solutions and other

software applications.

As a reminder, the company will a conference call on Thursday, April 26, 2018, at 9:00am Eastern Time (06:00am PST) to discuss year-end results, along with a Q&A session with Siyata Mobile CEO and Chairman, Marc Seelenfreund.

### **About Siyata**

A TSX Venture Top 50 Company, Siyata Mobile Inc. is a leading global developer and provider of cellular communications systems for enterprise customers, specializing in connected vehicle products for professional fleets, marketed under the Uniden® Cellular brand. Since developing the world's first 3G connected vehicle device, Siyata has been a pioneer in the industry, launching the world's first 4G LTE all-in-one fleet communications device in 2017. Incorporating voice, push-to-talk over cellular, data, and fleet management solutions into a single device, the company aims to become the connected vehicle communications device of choice for commercial vehicles and fleets around the world.

Siyata also offers rugged phones for industrial users and signal boosters for homes, buildings, and fleets with poor cell coverage. Siyata's customers include cellular operators, commercial vehicle technology distributors, and fleets of all

sizes in Canada, the U.S., Europe, Australia, and the Middle East.
