

Siyata Mobile Receives \$450,000 Purchase Order to Equip Bus Fleet with its Uniden® UV350

written by Raj Shah | December 10, 2019

December 10, 2019 ([Source](#)) – [Siyata Mobile Inc. \(the “Company” or “Siyata”\)](#) (TSX-V:SIM / OTCQX:SYATF) is pleased to announce that a \$450,000 purchase order has been received for a bus operating company to equip their fleet of buses with

the Uniden® UV350.

Marc Seelenfreund, CEO of Siyata Mobile, commented, “The UV350 is a great communications device for the bus market on both the North American and international stage. We believe that this will be a very strong vertical for Siyata as it well suits this market looking to migrate from Land Mobile Radio (LMR) technology to next generation Push-to-Talk over Cellular. In the U.S. alone, there are over 500,000 yellow school buses that require a safe and reliable emergency communications system and we are very committed to deliver on this opportunity.”

Since the beginning of Q4, the Company has announced a minimum of \$6.5M to \$9.0M of new business opportunities, including those for 2020, for its portfolio of 4G Push-to-Talk over Cellular devices. The upper-end of this range is greater than its cellular device sales in the first three quarters of 2019 and greater than all of 2018 4G cellular device sales.

The [Uniden® UV350](#) is the world's first LTE in-vehicle communications device with a Push-to-Talk Over Cellular (PoC) function, crystal-clear sound for voice calls, Android data applications, and more. This device was built and designed to minimize excessive clutter often found in commercial vehicles by incorporating the functions of multiple devices into one. The carrier-grade PoC network allows drivers to have nationwide seamless communication between one another at the push of a button, ensuring safe communication for professional drivers in the paving and construction industry.

Uniden® UV350 Features Include:

- 4G LTE high speed data
- 5.5" widescreen LED display for easy monitoring
- Dedicated microphone and speaker for crystal-clear extra loud sound quality
- In-vehicle installation ensures device is always powered by the vehicle's battery
- Extended cellular and GPS coverage with external antenna included
- Push-to-Talk Over Cellular (PoC) ensures instant communication at the push of a button

The UV350 is the first 4G/LTE all-in-one in vehicle fleet communication device that delivers crystal clear cellular voice calls, Push-to-Talk Over Cellular, data applications and more. This device was designed specifically for commercial vehicles ensuring safer communication for professional drivers.

About Siyata

A TSX Venture Top 50 Company, Siyata Mobile Inc. is a leading global developer and provider of cellular communications systems

for enterprise customers, specializing in connected vehicle products for professional fleets, marketed under the Uniden® Cellular brand. Siyata has been a pioneer in the industry, launching the world's first LTE all-in-one fleet communications device in 2017. Incorporating voice, push-to-talk over cellular, data, and fleet management solutions into a single device, the company aims to become the connected vehicle communications device of choice for commercial vehicles and fleets around the world.

Siyata also offers rugged phones for industrial users and signal boosters for homes, buildings, and fleets with poor cell coverage. Siyata's customers include cellular operators, commercial vehicle technology distributors, and fleets of all sizes in Canada, the U.S., Europe, Australia, and the Middle East.
