

Siyata Mobile Receives First Purchase Order from Tier 1 US Cellular Carrier for its Uniden® UV350 4G/LTE Vehicle Smartphone

written by Raj Shah | April 1, 2019

April 1, 2019 ([Source](#)) – *Built specifically for the needs of First Responder and commercial fleet vehicles, the UV350 allows drivers to keep their eyes on the road and hands on the wheel*

Siyata Mobile Inc. (the “Company” or “Siyata”) (TSX-V:SIM / OTCQX:SYATF) is pleased to announce it has received its first purchase order from a Tier 1 US Cellular Carrier, for its flagship Uniden® UV350 marking a significant milestone for the Company both as an official vendor to the carrier and receiving its first order from a major United States customer.

The Uniden® UV350 is the world’s first vehicle 4G/LTE smartphone with crystal clear quality, carrier grade PTT, voice, text, video, and data applications built into a single device, supported by a nationwide network. Features built specifically for the needs of First Responder and commercial fleet vehicles, allow drivers to keep their eyes on the road and hands on the wheel.

Marc Seelenfreund, CEO of Siyata Mobile states, “Siyata is not only first to market but has created a completely new device

category, likened to the rugged phone, the rugged tablet and feature phone categories all which sold millions of devices through Tier 1 U.S and global carriers. The UV350 represents a completely untapped yet equal opportunity which meets the needs of First Responder and commercial vehicles around the world and we are excited to be included in the ranks of the leading global cellular vendors.”

Details of the commercial launch will be announced shortly.

According to the United States Department of Transportation, in 2016 there were [3.5 million](#) First Responder vehicles and [9.7 million](#) commercial the United States. Siyata is the first and only company to offer a dedicated in-vehicle cellular solution for the next generation of fleet communication in North America.

About the Uniden UV350

The Uniden® UV350 is the first 4G/LTE all-in-one in vehicle fleet communication device that delivers crystal clear cellular voice calls, Push-to-Talk Over Cellular, data applications and more. This device was designed specifically for commercial vehicles ensuring safer communication for professional drivers.

About Siyata

A TSX Venture Top 50 Company, Siyata Mobile Inc. is a leading global developer and provider of cellular communications systems

for enterprise customers, specializing in connected vehicle products for professional fleets, marketed under the Uniden® Cellular brand. Since developing the world's first 3G connected vehicle device, Siyata has been a pioneer in the industry, launching the world's first 4G LTE all-in-one fleet communications device. Incorporating voice, push-to-talk over cellular, data, and fleet management solutions into a single device, the company aims to become the connected vehicle communications device of choice for commercial fleets and first responders around the world.

Siyata also offers rugged phones for industrial users and signal boosters for homes, buildings, and fleets with poor cell coverage. Siyata's customers include cellular operators, commercial vehicle technology distributors, and fleets of all sizes in Canada, the U.S., Europe, Australia, and the Middle East.
