Siyata Mobile to Demonstrate UV350 Running Motorola WAVE PTT at APCO 2019

written by Raj Shah | August 12, 2019

August 12, 2019 (Source) – Siyata Mobile Inc. ("Siyata") (TSX-V:SIM / OTCQX:SYATF) is pleased to announce that it will be demonstrating the Uniden® UV350 integrated with Motorola WAVE PTT at APCO 2019 in Baltimore, MD, August 12th and 13th, 2019. The Company will be presenting at the Motorola booth #611.

APCO attendees represent a wide range of public safety industries, including: emergency communications centers; law enforcement; fire service; emergency medical services; government agencies and more. This conference and exposition will provide Siyata with the opportunity to address potential large-scale customers and first responder users, while standing alongside one of America's leading LMR providers, Motorola Solutions.

Marc Seelenfreund, CEO of Siyata, commented, "APCO 2019 is a very valuable opportunity for Siyata to demonstrate the UV350 capabilities running Wave PTT. Showcasing our UV350 with WAVE PTT will attest to the value and reliability of our combined offering as the premier in-vehicle LTE solution for the commercial fleet and first responder market in North America."

The industry's reception of the UV350 device thus far has been extremely positive, indicating the need for its unique all-in-one capabilities that are highlighted as major safety

precautions. The various safety and operational features include:

- LTE high speed data
- 5.5” widescreen LED display for easy monitoring
- Dedicated microphone and speaker for crystal-clear extra loud sound quality
- In-vehicle installation ensures device is always powered by the vehicle’s battery
- Extended cellular and GPS coverage with external antenna included
- Push-to-Talk Over Cellular (PoC) ensures instant communication at the push of a button

About the Uniden UV350

The Uniden® UV350 is the first LTE all-in-one in vehicle fleet communication device that delivers crystal clear cellular voice calls, Push-to-Talk Over Cellular, data applications and more. This device was designed specifically for commercial vehicles ensuring safer communication for professional drivers.

About APCO 2019

APCO International’s Annual Conference & Expo, is the premier event for public safety communications officials, from frontline telecommunicators to comm center managers to public safety communications equipment and services vendors. Starting August 11, APCO 2019 offers four days of educational sessions, committee meetings and special events, paired with two full days of exhibits.

About Siyata

A TSX Venture Top 50 Company, Siyata Mobile Inc. is a leading global developer and provider of cellular communications systems for enterprise customers, specializing in connected vehicle products for professional fleets, marketed under the Uniden®

Cellular brand. Since developing the world's first 3G connected vehicle device, Siyata has been a pioneer in the industry, launching the world's first LTE all-in-one fleet communications device in 2017. Incorporating voice, push-to-talk over cellular, data, and fleet management solutions into a single device, the company aims to become the connected vehicle communications device of choice for commercial vehicles and fleets around the world.

Siyata also offers rugged phones for industrial users and signal boosters for homes, buildings, and fleets with poor cell coverage. Siyata's customers include cellular operators, commercial vehicle technology distributors, and fleets of all sizes in Canada, the U.S., Europe, Australia, and the Middle East.
