February 5, 2019 ([Source](#)) – *Completed Optimization on Initial 2 Buildings in the UK*

Smartcool Systems Inc. (TSXV: SSC) (OTC Pink: SSCFF) (FSE: R3W) are pleased to announce that Smartcool have successfully completed installations of their proprietary air-conditioning and heat pump optimization technology for Knight Frank LLP on two large office buildings in the UK, one in London and one in Bristol, with measured results of over 20% energy savings.

Ted Konyi, CEO Smartcool Systems, commented, “Working with Knight Frank has been a great experience. They clearly are committed to playing a significant role in assisting their clients in reducing their carbon footprint through various energy efficiency measures. We have managed to demonstrate significant energy reduction with the two initial projects and have now surveyed an additional 18 buildings on Knight Frank’s recommendation. The opportunity for further collaboration in the UK and elsewhere in Knight Frank’s world could generate tremendous benefits for both the clients and the environment. We are looking forward to continuing to expand our relationship with Knight Frank and their clients.”

David Goatman, Partner and Head of Energy and Sustainability at Knight Frank LLP said, “As one of the leading asset managers of real estate assets in the world we are constantly looking for new ways to improve the resource efficiency of our client’s buildings. Smartcool is a very impressive technology and one

that we have one installed now in two large UK assets, it is an example of the way in which we seek to utilize best in class technologies to drive positive sustainability outcomes for our assets. I look forward to continuing to collaborate with Smartcool and to extend the roll-out of the technology across many more of our assets under management.”
