

SOL Global Completes Acquisition of 3 Boys Farms through the Purchase of CannCure Investments Inc.

written by Raj Shah | April 8, 2019

April 8, 2019 ([Source](#)) – SOL Global Investments Corp. (“**SOL Global**” or the “**Company**”) (CSE: SOL) (OTCQB: SOLCF) (Frankfurt: 9SB) is pleased to announce the completion of its acquisition of CannCure Investments Inc. (“**CannCure**”), a privately-

held Ontario corporation that indirectly holds 100% of 3 Boys Farms, LLC (“**3 Boys Farms**”), a Florida limited liability company with a Florida state license to cultivate, process and dispense medical marijuana.

Pursuant to the terms of an amended and restated share purchase agreement (the “**Amended Purchase Agreement**”) between the Company, CannCure and the shareholders of CannCure (the “**Sellers**”), SOL Global acquired all of the issued and outstanding common shares of CannCure for a revised purchase price of US\$41,207,519, which was partially satisfied by the issuance of 7,317,500 common shares of SOL Global (“**Consideration Shares**”) at a negotiated price of CAD \$4.00 per share to the Sellers on a *pro-rata* basis.

Further to the terms of the Amended Purchase Agreement, in the event that the Company announces a binding agreement to re-sell 3 Boys Farms within 24 months of the closing date, then the Company will also pay an earn-out structured as follows: (i) the

Company and the Sellers will each receive funds from the sale proceeds as reimbursement of the amounts each had invested into 3 Boys Farms; and ii) any remaining amount from such sale proceeds would be split, with 42% going to the Company and 58% going to the Sellers. If the Company fails to announce a binding agreement to sell 3 Boys Farms within 2 years of the closing date, then the Company will pay the Sellers a payment of US\$80,000,000.

3 Boys Farms' operations consist of 40,000 square feet of fully-operational greenhouses located on an eight-acre parcel of land. The existing facilities include a two-acre odor mitigation space that is run 100% with harvested rainwater, solar pumps and repurposed high-volume chilled air from the cultivation greenhouses, resulting in a zero-carbon footprint. 3 Boys Farms' innovations, including alternative energy use, greenhouse cooling designs, and rainwater harvesting, were recognized and honored by the Governor's Environmental Leadership Award. Additionally, 3 Boys Farms has commenced extraction and processing operations at its new GMP-certified farm and laboratory facility in Indiantown, Florida. The new facility will also include 64,000 square feet of indoor cultivation and processing space and 50,000 square feet of greenhouses. Cultivation at the new facility is expected to commence in the third quarter of 2019. The new facility will add to the production capacity of 3 Boys Farms, which currently harvests approximately 350 pounds of premium-quality cannabis flower per month out of its facilities in Ruskin, Florida.

Brady Cobb, the Chief Executive Officer and a director of the Company, was a shareholder of CannCure and received 239,414 Consideration Shares, representing 3.27% of the total number of Consideration Shares issued to the Sellers. Mr. Cobb declared his conflict-of-interest to the Company's board of directors and did not participate in the ultimate decision-making

deliberations of the board of directors regarding the acquisition of CannCure. The acquisition of CannCure was not a related party transaction as contemplated under Multilateral Instrument 61-101 – *Protection of Minority Security Holders in Special Transactions* in that Mr. Cobb was neither a director nor officer of SOL Global at the time SOL Global entered into a binding letter of intent to acquire CannCure in July of 2018.
