

Sonoro Adds Tres Amigos Concession to Cerro Caliche

written by Raj Shah | May 30, 2018

May 29, 2018 ([Source](#)) – Sonoro Metals Corp., (“Sonoro”) (TSXV:SMO)

(OTCQB:SMOFF), announces that its Mexican subsidiary, Minera Mar De Plata, SA de C.V. has executed a formal option agreement (the “Tres Amigos Option Agreement”) with two

residents of Magdalena de Kino, Sonora, Mexico (the “Vendors”), to acquire a 100% interest in the 20 hectare Tres Amigos concession (“Tres Amigos”) located contiguous to the recently-acquired Cerro Caliche concessions in the prolific Cucurpe Sonora Mega-district of Sonora, Mexico. The option agreement increases the land holdings under option to Sonoro in this important gold mining district to 1,455 hectares.

The Tres Amigos Option Agreement provides for Sonoro to acquire a 100% interest in Tres Amigos for total consideration to the Vendor of US\$130,000, payable in nine equal cash installments over 48 months. The initial installment of US\$14,444.44 was paid on execution of the Tres Amigos Option Agreement.

The Cerro Caliche concessions, which now incorporate Tres Amigos (collectively “Cerro Caliche”) were the subject of earlier drill programs by Cambior Gold, Corex Gold Corp., with the most recent drilling conducted in 2011 by Paget Southern Resources (Pembroke Mining). Total drilling by those companies in the last 20 years exceeding 10,000 meters in more than 100 drill holes, reportedly outlined large areas of mineralized material that may in future programs assist in defining a resource with significant gold

mineralization. A historic non-published report completed by Corex (Flores, 2008) includes a non NI 43-101 resource estimation.

The Tres Amigos concession contains a strongly mineralized quartz vein system oriented northwesterly with common sheeted and stockwork quartz veining in the host rock that is part sedimentary rock and part rhyolitic intrusive rock. The rhyolite dike appears to grade upward into a more volcanic rhyolite unit that also contains veining with gold bearing veinlets. Tres Amigos is located over the historic Espanola mine that was artisan mined around 1955 by using pack burros to haul "high grade" material to the running river below for processing.

"Our Hermosillo-based exploration team, headed by noted geologist Mel Herdrick, is currently defining targets throughout the Cerro Caliche concessions for a reverse circulation drilling program scheduled to begin during the second half of 2018," said Kenneth MacLeod, President and CEO of Sonoro. "The drilling program is being designed to verify the earlier data and to expand the scope and scale of the gold resource indicated in the Corex report."

The Cucurpe Sonora Mega-district includes Premier Gold's Mercedes gold mine; Goldgroup Mining's Cerro Prieto gold mine; Agnico Eagle's recently purchased Santa Gertrudis gold mine; and other gold mineralized prospect areas.

Readers are cautioned that the presence of mineralization on properties adjacent to or in proximity to Cerro Caliche is not necessarily indicative of mineralization on Cerro Caliche.

Forward-Looking Statement Cautions: This press release contains certain "forward-looking statements" within the meaning of Canadian securities legislation, relating to, among other things, the Company's plans for the acquisition of the above-described Tres Amigos and Cerro Caliche Concessions, located in the municipality of Cucurpe, Sonora, Mexico, and the Company's future exploration plans for those properties. Although the Company believes that such statements are reasonable based on current circumstances, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are statements that are not historical facts; they are generally, but not always, identified by the words "expects," "plans," "anticipates," "believes," "intends," "estimates," "projects," "aims," "potential," "goal," "objective," "prospective," and similar expressions, or that events or conditions "will," "would," "may," "can," "could" or

“should” occur, or are those statements, which, by their nature, refer to future events. The Company cautions that forward-looking statements are based on the beliefs, estimates and opinions of the Company’s management on the date the statements are made and they involve a number of risks and uncertainties, including the possibility of unfavourable interim exploration results, the lack of sufficient future financing to carry out exploration plans, and unanticipated changes in the legal, regulatory and permitting requirements for the Company’s exploration programs. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law or the policies of the TSX Venture Exchange.
