

# Stakeholder Announces OTCQB Listing

written by Raj Shah | January 8, 2026

January 8, 2026 ([Source](#)) – Stakeholder Gold Corp. (TSXV: SRC) (OTCQB: SKHRF) (WKN: A2QEP1) (“Stakeholder” or the “Company”) is pleased to announce that the Company has received approval to trade on the OTCQB Venture Market (OTCQB) in the United States and that its common shares are now actively trading under the symbol SKHRF.

The OTCQB Venture Market is recognized as a premier marketplace for early-stage and developing companies that meet high financial reporting standards and provide current public disclosures. Approval for OTCQB trading represents an important milestone for Stakeholder and significantly enhances the Company’s visibility and accessibility to U.S. investors.

“The Company’s admission to the OTCQB Venture Market provides Stakeholder with increased exposure to a broader investor base in the United States and is expected to improve trading liquidity for all shareholders,” stated Christopher Berlet, CEO and Director of Stakeholder Gold Corp.

“This expanded U.S. market presence aligns with our growth strategy of advancing exploration on the Ballarat Gold-Copper Project in the Yukon Territory while continuing to scale profitable quartzite operations in Brazil. The OTCQB listing will be beneficial as we execute our dual-track strategy of generating cash flow from Brazilian quarry operations while advancing high-impact exploration targets in Canada.”

Trading on the OTCQB is expected to strengthen Stakeholder’s ability to attract U.S. institutional and retail investors by

providing transparent pricing, improved market efficiency, and enhanced discoverability through a significant U.S. trading platform. The Company believes that this increased access to U.S. capital markets will support its long-term objective of advancing high-impact exploration activities while minimizing dilution to existing shareholders.

The Company maintains full compliance with TSX Venture Exchange requirements and upholds corporate governance and disclosure practices across all jurisdictions in which its securities trade.

### **About Stakeholder Gold Corporation**

Stakeholder holds 100% ownership of 930 contiguous mineral claims covering 19,440 hectares and spanning 17 km of the Northern Gateway Road which is being developed through the geographical center of the White Gold District of the Yukon Territory, Canada. Stakeholder also maintains in good standing 10 claims located inside the adjacent Coffee Mine Project which is being developed by Fuerte Metals Corp. (TSXV: FMT). These combined claim holdings are referred to collectively as the Ballarat Gold-Copper Project ("**Ballarat**"). Within the Company's contiguous claim holdings Stakeholder is advancing exploration initiatives on the **Skye Gold Zone** and the **Loki Copper Zone** exploration targets which hold prospectivity for new gold and copper discoveries respectively, on either side of the Northern Gateway Road route, in the Heart of the White Gold District.

Stakeholder also generates cash flow from the production and sale of exotic stones through its 100% owned Brazilian subsidiary Mineração VMC Ltda. ("**VMC**"). VMC is currently

producing from 3 independent stone quarries and is seeking opportunities to expand the sale and export of exotic stone building materials from Brazil.
