

Stakeholder Gold Closes Two Tranches of Flow-Through Financing

written by Raj Shah | March 19, 2026

March 19, 2026 ([Source](#)) – Stakeholder Gold Corp. (TSXV: SRC) (OTCQB: SKHRF) (WKN: A2QEP1) (“Stakeholder” or the “Company”) is pleased to announce that it has closed two tranches of a non-brokered flow-through private placement for aggregate gross proceeds of \$2,290,000.

The first tranche was completed at a price of \$1.10 per unit for a total of 1,000,000 units, and the second tranche was completed at a price of \$1.19 per unit for a total of 1,000,000 Units (collectively, the “Private Placement”).

Each flow-through unit consists of one common share of the Company issued on a flow-through basis pursuant to the *Income Tax Act (Canada)* and one half of one common share purchase warrant. Each warrant entitles the holder to acquire one additional common share of the Company at an exercise price of \$1.20 per share for a period of two (2) years from the date of issuance.

Each whole Warrant has an early exercise provision that allows the Company to trigger exercise of the Warrant when the 10-day average price of Common Shares traded on the TSX Venture Exchange exceeds \$1.50 per share. Thirty days (30) after the trigger date, any unexercised Warrants will be deemed to be null and void. All securities issued under this Private Placement will be subject to a ‘hold’ period expiring four months and one day from the date of closing.

“Stakeholder is now fully funded for 2026 exploration on Ballarat,” stated Christopher Berlet, CEO of Stakeholder.

“Our objective is to be drilling the Skye and East (gold) and Loki (copper) zone targets as soon as possible after the Spring snow melt. Shareholders can expect news describing exploration target highlights before drilling begins. After significant preparation, we are set to launch an exciting exploration season on the company’s Ballarat Gold-Copper Project located in the geographical center of the White Gold District of the Yukon Territory, Canada.”

The gross proceeds from the Private Placement will be used to fund eligible Canadian exploration expenditures, including expenditures that qualify as Critical Mineral and non-Critical Mineral exploration expenses, as defined under the *Income Tax Act (Canada)*. The Company intends to incur qualifying expenditures on its exploration properties in Canada and to renounce such expenditures to subscribers effective December 31, 2026.

All securities issued in connection with the Private Placement are subject to a statutory hold period in accordance with applicable securities laws. The Private Placement remains subject to final approval of the TSX Venture Exchange.

About Stakeholder Gold Corporation

Stakeholder holds 100% ownership of 930 contiguous mineral claims covering 18,520 hectares and spanning 20 km of the proposed route for the [Northern Gateway Road](#) which is being developed through the geographical center of the White Gold District of the Yukon Territory, Canada. Stakeholder also maintains in good standing 10 claims located inside the adjacent Coffee Mine Project which is being developed by Fuerte Metals Corp. These combined claim holdings are referred to collectively

as the Ballarat Gold-Copper Project (“**Ballarat**”).

Within the Company’s contiguous claim holdings Stakeholder is advancing exploration initiatives on the Skye Gold Zone and the Loki Copper Zone exploration targets which are separated by some 8 km, and which hold prospectivity for new gold and copper discoveries respectively, on either side of the proposed route for the Northern Gateway Road, in the heart of the White Gold District.

Forward-Looking Information

This news release contains forward-looking information. All information, other than information of historical fact, constitute “forward-looking statements” and includes any information that addresses activities, events or developments

that the Corporation believes, expects or anticipates will or may occur in the future including the Corporation's strategy, plans or future financial or operating performance.

When used in this news release, the words "estimate", "project", "anticipate", "expect", "intend", "believe", "hope", "may" and similar expressions, as well as "will", "shall" and other indications of future tense, are intended to identify forward-looking information. The forward-looking information is based on current expectations and applies only as of the date on which they were made. The factors that could cause actual results to differ materially from those indicated in such forward-looking information include, but are not limited to, the ability of the Corporation to fund the exploration expenditures required under the Agreement. Other factors such as uncertainties regarding government regulations could also affect the results. Other risks may be set out in the Corporation's annual financial statements, MD&A and other publicly filed documents.

The Corporation cautions that there can be no assurance that forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, investors should not place undue reliance on forward-looking information. Except as required by law, the Corporation does not assume any obligation to release publicly any revisions to forward-looking information contained in this press release to reflect events or circumstances after the date hereof.

Neither the TSX Venture Exchange nor its Regulation Service Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
