

ThermalPass Offers More Bang by the Bundle for Companies Equipping Their Facilities to Mitigate the Spread of Covid-19

written by Raj Shah | May 4, 2021

May 4, 2021 ([Source](#)) – MCL, Sales Channel Partner and North America's leading supplier of cleaning products and equipment offers bundled suite of Covid-19 infection prevention solutions to help businesses stay safe

Predictiv AI Inc. (TSXV: [PAI](#)) (OTC: INOTF) (FSE: 71TA) ("**Predictiv AI**" or the "**Company**"), www.predictiv.ai, a software and solutions provider in the artificial intelligence markets, is pleased to announce that its channel reseller partner MCL Sustainable Cleaning Solutions ("**MCL**") is showcasing its high-capacity walk-through temperature scanning system, **ThermalPass** www.thermalpass.com, as its anchor product in a product bundling offer to help companies maintain a healthy office environment at an easy-to-acquire and affordable entry price.

MCL has bundled eight specialized supplies and technologies to help mitigate the spread of Covid-19 at offices, schools, sports arenas, and other indoor spaces, all for a low monthly payment of \$499 over 60-month term or discounted packaged pricing.

MCL/ThermalPass Bundle Offering: [MCL Infection Prevention Bundle](#)

ThermalPass can be assembled almost anywhere in minutes and

resembles a thin-framed metal detector at building entranceways, allowing touchless temperature checks from a distance as people enter a facility. The system utilizes 24 thermal sensors in each device, scanning 1,200 temperatures per second with a capacity to check up to 60 people per minute. Unlike most camera-based systems, ThermalPass is not camera based and therefore does not encroach on people's privacy.

"MCL is making it super easy to make a value-oriented purchase of complementary offerings that provides decision makers with the most effective supplies and technologies available to help workplaces stay safe and stop the spread of the virus," said Michael Lende, CEO of Predictiv AI. "This product offering will also help introduce and accelerate the sales of ThermalPass as the premiere standalone temperature scanner already endorsed by some of the largest school districts and most prestigious hospitals in the United States."

In mid-February, ThermalPass engaged MCL as its channel reseller and distributor to help expand the sales of ThermalPass in the K-12 education, health care, hospitality, food service, commercial real estate, long-term care, and government sectors across Canada. MCL has relationships with such high-profile customers as Air Canada, the City of Toronto, the Toronto District School Board, Maple Leaf Sports and Entertainment, Metro Toronto Convention Centre, Sunnybrook Hospital and U of T.

"Thank you ThermalPass for playing such an indispensable role for our clients and their Technology Bundle, helping to identify those with an elevated temperature right from the critical point of entry," said MCL CEO, Warren Jacob's. "ThermalPass is a key component in our latest IPAC bundling promotion which keeps facilities safe for years to come at a minimal monthly expense, ensuring peace of mind for staff and clients alike."
