## **ABOUT TNR GOLD CORP.**

TNR Gold Corp. is working to become an energy metals royalty company. Over the past twenty-two years, TNR, through its lead generator business model, has been successful in generating high quality exploration projects around the globe. With the Company’s expertise, resources and industry network, it identified the potential of the Los Azules copper project in Argentina and now holds a 0.36% NSR royalty on the entire project, which is being developed by McEwen Mining Inc.

The Company would receive \$900,000 on execution of the repurchase. The project is currently being advanced in a joint venture between ILC and Ganfeng Lithium International Co. Ltd.

At its core, TNR provides significant exposure to gold, copper and lithium through its holdings in Alaska (the Shotgun gold porphyry project) and Argentina, and is committed to continued generation of in-demand projects, while diversifying its markets and building shareholder value.
