

Visionstate Corp. Announces Game-Changing Roll Out of WANDA(TM) Platform

written by Raj Shah | November 9, 2023

Latest installation highlights the flexibility of WANDA™

November 9, 2023 ([Source](#)) – **Visionstate Corp. (TSXV:VIS)** (“**Visionstate**” or the “**Company**”), a leading provider of innovative software solutions, is thrilled to announce its latest achievement – a multi-location contract with a large post-secondary institution. This collaboration signifies another “use case” milestone for Visionstate, as it continues to expand the horizons of smart technology solutions.

Under this agreement, Visionstate will implement its cutting-edge WANDA™ software for fleet management, revolutionizing the institution’s vehicle management processes. This transformative installation will serve more than 500 users across multiple locations, streamlining the check-in/check-out procedures for fleet vehicles and digitizing the storage of crucial information on the WANDA™ portal.

“This partnership underscores our commitment to harnessing technology for real-world solutions,” said Shannon Moore, President of Visionstate IoT. “We are proud to be at the forefront of transformative fleet management, addressing longstanding challenges and opening doors to predictive maintenance capabilities.”

Traditionally, paper-based check-in and check-out procedures often resulted in challenges such as misplaced paperwork, missed check-ins, and incomplete records. This innovative installation

will resolve these issues by creating a seamless, digital system for fleet management, ensuring transparency and accountability.

One of the most exciting aspects of this collaboration is the potential for predictive maintenance. By digitally monitoring the usage and maintenance of the fleet vehicles over time, WANDA™ software will gather valuable insights. These insights will enable the institution to proactively address maintenance needs, reduce downtime, and optimize the performance and longevity of its fleet.

Visionstate is excited about the opportunities that this contract brings and is dedicated to continuing its mission of providing innovative solutions that drive efficiency, accountability, and sustainability.

About Visionstate Corp.

Visionstate Corp. (TSXV: VIS) is a growth-oriented company that invests in the research and development of promising new technology in the realm of the Internet of Things, big data and analytics, and sustainability. Visionstate IoT Inc. is a wholly-owned subsidiary of Visionstate Corp. Through Visionstate IoT Inc., it helps businesses improve operational efficiencies, reduce costs, and elevate customer satisfaction with its state-of-the-art devices that track and monitor guest activities and requests. The footprint of its WANDA™ smart device now extends to hospitals, airports, shopping centres, and other public facilities across and beyond North America. Through building up a collection of synergistic technologies, Visionstate Corp. will continue to innovate, reduce environmental impact, and transform consumer experiences.

Forward-Looking Statements

Certain information set forth in this material may contain forward-looking statements that involve substantial known and unknown risks and uncertainties. All statements other than statements of historical fact are forward-looking statements, including, without limitation, statements regarding future financial position, business strategy, use of proceeds,

corporate vision, proposed acquisitions, partnerships, joint-ventures and strategic alliances and co-operations, budgets, cost and plans and objectives of or involving the Company. Such forward-looking information reflects management's current beliefs and is based on information currently available to management. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "predicts", "intends", "targets", "aims", "anticipates" or "believes" or variations (including negative variations) of such words and phrases or may be identified by statements to the effect that certain actions "may", "could", "should", "would", "might" or "will" be taken, occur or be achieved. A number of known and unknown risks, uncertainties and other factors may cause the actual results or performance to materially differ from any future results or performance expressed or implied by the forward-looking information. These forward-looking statements are subject to numerous risks and uncertainties, certain of which are beyond the control of the Company including, but not limited to, the impact of general economic conditions, industry conditions and dependence upon regulatory approvals. Readers are cautioned that the assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be imprecise and, as such, undue reliance should not be placed on forward-looking statements. The Company does not assume any obligation to update or revise its forward-looking statements, whether as a result of new information, future events, or otherwise, except as required by securities laws.
