Visionstate Secures $300,000 Convertible Debenture Financing to Accelerate Growth in Smart Facility Management

written by Raj Shah | November 5, 2025

November 5, 2025 (Source) – Visionstate Corp. (TSXV: VIS) ("Visionstate" or the "Company"), a leader in smart facility management, is pleased to announce that it has entered into a $300,000 convertible debenture agreement with one of its longstanding and supportive shareholders. The financing will provide additional capital to accelerate Visionstate's global expansion and further advance the Company's growing portfolio of smart facility management technologies.

The debenture is convertible at $0.05 per share, representing a significant premium to the current market price. This structure reflects both strong shareholder confidence in Visionstate's strategic direction and expectations for future value creation as the Company continues to scale.

"This financing underscores the confidence our investors have in Visionstate's vision and execution," said John Putters, CEO of Visionstate Corp. "The facility management sector is undergoing a rapid digital transformation, and Visionstate is ideally positioned to lead that change. Our technologies are driving efficiency, compliance, and sustainability – all of which are becoming essential standards in the modern built environment."

Across North America, digital transformation in facility management is accelerating, driven by demand for accountability, real-time data, and sustainability. Legislation such as

Ontario’s Bill 190, which mandates cleaning time displays in public washrooms, reflects the growing importance of digital tools like Visionstate’s WANDA, WANDALITE and MIRA in ensuring compliance and transparency.

Visionstate’s flagship WANDA platform was well ahead of its time when first introduced, pioneering the use of IoT and data analytics in facility management long before the industry fully recognized their value. Today, as the market rapidly embraces digital solutions, Visionstate is well positioned to capitalize on this long-anticipated shift.

“We are deeply appreciative of the patience and support our shareholders have shown as the market caught up to our vision,” added Putters. “That commitment has allowed us to continue building the foundation for sustainable, scalable growth in an industry that is now evolving faster than ever.”

With this new capital, Visionstate is positioned to leverage its first-mover advantage and capture market share in the growing global shift toward intelligent facility management.

With this new capital, Visionstate is positioned to leverage its first-mover advantage and capture market share in the growing global shift toward intelligent facility management. The Company’s SaaS-based model provides strong recurring revenue potential, while its expanding suite of products – including MIRA for inspections and TidyLogic AI for intelligent resource planning – offers high scalability and cross-sector applicability, setting the stage for long-term shareholder returns as adoption accelerates.

About Visionstate Corp.

Visionstate Corp. (TSXV: VIS) is a growth-oriented company that invests in the research and development of promising new technology in the realm of the Internet of Things, big data and analytics, and sustainability. Visionstate IoT Inc. is a wholly owned subsidiary of Visionstate Corp. Through Visionstate IoT Inc., it helps businesses improve operational efficiencies, reduce costs, and elevate customer satisfaction with its state-of-the-art devices that track and monitor guest activities and requests. The footprint of its WANDA™ smart device now extends to hospitals, airports, shopping centres, and other public facilities across and beyond North America. Through building up a collection of synergistic technologies, Visionstate Corp. will continue to innovate, reduce environmental impact, and transform consumer experiences.

Forward-Looking Statements

Certain information set forth in this material may contain forward-looking statements that involve substantial known and unknown risks and uncertainties. All statements other than statements of historical fact are forward-looking statements, including, without limitation, statements regarding future financial position, business strategy, use of proceeds, corporate vision, proposed acquisitions, partnerships, joint-ventures and strategic alliances and co-operations, budgets, cost and plans and objectives of or involving the Company. Such forward-looking information reflects management's current beliefs and is based on information currently available to management. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "predicts", "intends", "targets", "aims", "anticipates" or "believes" or variations (including negative variations) of such words and phrases or may be identified by statements to the effect that certain actions "may", "could", "should", "would", "might" or "will" be taken, occur or be achieved. A number of known and unknown risks, uncertainties and other factors may cause the actual results or performance to materially differ from any future results or performance expressed or implied by the forward-looking information. These forward-looking statements are subject to numerous risks and uncertainties, certain of which are beyond the control of the Company including, but not limited to, the impact of general economic conditions, industry conditions and dependence upon regulatory approvals. Readers are cautioned that the assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be imprecise and, as such, undue reliance should not be placed on forward-looking statements. The Company does not assume any obligation to update or revise its forward-looking statements, whether because of new information, future events, or otherwise, except as required by securities laws.
