The vast majority of users will be able to access the app, a small subset of users may experience a slight delay in connecting as the system fully reboots.

“Our team took rapid and incredible actions to restore our systems so Voyager members can have all the services they expect,” said Steve Ehrlich, Co-founder and CEO of Voyager. “I would like to thank our customers for their patience while our system was offline. As part of our process and procedures upon detecting a threat, we promptly shut down the system in order to secure customer funds and information.
