About Wealth Minerals Ltd.

Wealth is a mineral resource company focussed on the acquisition and development of lithium projects in Chile, South America. To date, the Company has positioned itself to develop the Laguna Verde and Trinity projects as well as to work alongside existing producers in the prolific Atacama where we are developing our 46,000 hectares land right. The Company aims to bring a reliable source of ethically produced lithium to market in close cooperation with government agencies and local stakeholders. Lithium market dynamics and a rapidly increasing metal price are the result of profound structural issues with the industry meeting anticipated future demand. Wealth is positioning itself to be a major beneficiary of this future mismatch of supply and demand. The Company also maintains and continues to evaluate a portfolio of precious and base metal exploration-stage projects.
