

Wealth Closes Final Tranche of Oversubscribed Non-Brokered Private Placement

written by Raj Shah | June 15, 2018

June 14, 2018 (Source) – Wealth Minerals Ltd. (the “Company” or “Wealth”) – (TSXV:WML) (OTCQX:WMLLF) (SSE:WMLCL) (Frankfurt:[EJZ](#)), announces it has closed the final tranche of an oversubscribed non-brokered private placement previously

announced on May 7, 2018 and May 23, 2018 (the “Placement”). An additional 108,000 units (each, a “Unit”) and 500,000 common shares were issued at a price of \$1.10 per equity security for gross proceeds of \$668,800 under the final tranche and aggregate gross proceeds of \$6,914,859.60 under the Placement. Each Unit consists of one common share in the capital of the Company (each, a “Share”) and one-half of one common share purchase warrant, with each whole warrant (each, a “Warrant”) entitling the holder to acquire one additional Share at a price of \$1.50 per Share for a period of up to two years, expiring on June 14, 2020. In the event that the closing price of the Shares on the TSX Venture Exchange (the “TSXV”) is at least \$2.50 per Share for a period of 10 consecutive trading days commencing four months and one day after the closing of the Placement, the Company may accelerate the expiry date of the Warrants by providing notice to the shareholders thereof and, in such case, the Warrants will expire on the 30th day after the date on which such notice is given by the Company.

All securities issued by the Company pursuant to the Placement

will have a four month and one day hold period in Canada. In connection with the final tranche of the Placement, the Company paid finder's fees to Edelmetall Finance Inc. in the aggregate amount of 49,955 Units. All Units issued as finder's fees have the same terms and conditions as the Units issued under the final tranche of the Placement, with the exception that the Warrants forming part of the Units issued as finder's fees are non-transferable.

The net proceeds from the Placement are intended to fund option payments on the Company's mineral property options, costs for the review and assessment of potential lithium mineral property acquisitions in South America, exploration work on the Company's existing mineral projects and for general and administrative expenses and working capital purposes.

None of the foregoing securities have been and will not be registered under the *United States Securities Act of 1933*, as amended (the "1933 Act") or any applicable state securities laws and may not be offered or sold in the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the 1933 Act) or persons in the United States absent registration or an applicable exemption from such registration requirements. This news release does not constitute an offer to sell or the solicitation of an offer to buy nor will there be any sale of the foregoing securities in any jurisdiction in which such offer, solicitation or sale would be unlawful.

The Company also announces that it has entered into a consulting agreement (the "Consulting Agreement") with Liviakis Financial Communications, Inc. (the "Consultant"), whereby it has engaged the Consultant for a period of 24 months at the aggregate cost of \$550,000 to provide investor relations services to the Company. Pursuant to the Consulting Agreement, the Consultant

will communicate with investment dealers, advisers and shareholders to increase the awareness of, and interest in, the Company.

About Wealth Minerals Ltd.

Wealth is a mineral resource company with interests in Canada, Mexico, Peru and Chile. The Company's main focus is the acquisition of lithium projects in South America. To date, the Company has positioned itself to develop the Aguas Calientes Norte and Quisquiro Salars in Chile (the Trinity Project), as well as to work alongside existing producers in the prolific Atacama Salar. In addition to the Laguna Verde lithium project acquisition, the Company has also positioned itself to play a role in asset consolidation in Chile with the Five Salars Project.

The Company is transitioning from an asset acquisition phase to developing its current high potential portfolio. Lithium market dynamics and rapidly increasing metal prices are the result of profound structural issues with the industry meeting anticipated future demand. Wealth is positioning itself to be a major beneficiary of this future mismatch of supply and demand. The Company also maintains and continues to evaluate a portfolio of precious and base metal exploration-stage projects.

For further details on the Company readers are referred to the Company's website (www.wealthminerals.com) and its Canadian regulatory filings on SEDAR at www.sedar.com.

Cautionary Note Regarding Forward-Looking Statements

This news release contains forward-looking statements and forward-looking information (collectively, “forward-looking statements”) within the meaning of applicable Canadian and U.S. securities legislation, including the United States Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical fact, included herein including, without limitation, anticipated exploration program results from exploration activities, the Company’s expectation that it will be able to enter into agreements to acquire interests in additional mineral properties, the discovery and delineation of mineral deposits/resources/reserves, the intended use of the proceeds received from the Placement, anticipated benefits to the Company of any communications by the Consultant with investment dealers, advisers and shareholders, and the anticipated business plans and timing of future activities of the Company, are forward-looking statements. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are typically identified by words such as: “believe”, “expect”, “anticipate”, “intend”, “estimate”, “postulate” and similar expressions, or are those, which, by their nature, refer to future events. In making the forward-looking statements in this news release, the Company has applied several material assumptions, including without limitation, that market fundamentals will result in sustained lithium demand and prices, the receipt of any necessary permits, licenses and regulatory approvals in connection with the future

development of the Company's Chilean lithium projects in a timely manner, the availability of financing on suitable terms for the development, construction and continued operation of the Company projects, and the Company's ability to comply with environmental, health and safety laws.

The Company cautions investors that any forward-looking statements by the Company are not guarantees of future results or performance, and that actual results may differ materially from those in forward-looking statements as a result of various factors, including, operating and technical difficulties in connection with mineral exploration and development activities, actual results of exploration activities, the estimation or realization of mineral reserves and mineral resources, the timing and amount of estimated future production, the costs of production, capital expenditures, the costs and timing of the development of new deposits, requirements for additional capital, future prices of lithium, changes in general economic conditions, changes in the financial markets and in the demand and market price for commodities, lack of investor interest in the Placement, accidents, labour disputes and other risks of the mining industry, delays in obtaining governmental approvals, permits or financing or in the completion of development or construction activities, changes in laws, regulations and policies affecting mining operations, title disputes, the inability of the Company to obtain any necessary permits, consents, approvals or authorizations, including acceptance by the TSXV of the Consulting Agreement and the Placement, required for future exploration activities or the acquisition of additional mineral properties, the timing and possible outcome of any pending litigation, environmental issues and liabilities, and risks related to joint venture operations, and other risks and uncertainties disclosed in the Company's latest interim Management Discussion and Analysis and filed with certain

securities commissions in Canada. All of the Company's Canadian public disclosure filings may be accessed via www.sedar.com and readers are urged to review these materials, including the technical reports filed with respect to the Company's mineral properties.

Readers are cautioned not to place undue reliance on forward-looking statements. The Company undertakes no obligation to update any of the forward-looking statements in this news release or incorporated by reference herein, except as otherwise required by law.
