

Wealth Strengthens Board with New Appointment

written by Raj Shah | February 14, 2018

February 14, 2018 ([Source](#)) – Wealth Minerals Ltd. (the “Company” or “Wealth”) –

(TSXV:WML) (OTCQB:WMLLF) (SSE:WMLCL) (Frankfurt:[EJZN](#)), reports that it has strengthened its board of directors with the appointment of Stefan

Schauss to serve as a director.

“Mr. Schauss brings to Wealth decades of experience in the electric battery, green power industries,” states Wealth Mineral’s CEO Henk van Alphen, “we are very pleased to have him join our team as a Board Member and I look forward to working with him to make new inroads into the fast-growing base of lithium consumers.”

Stefan Schauss Background

Mr. Schauss has over 20 years of sales and business development experience, with a particular focus in recent years on the integration of EV infrastructure in both residential and industrial areas. He has also served in product management and business development roles for several companies regarding semiconductors, integrated circuits, and other electronic goods.

Mr. Schauss is currently an independent consultant, and prior to that he was head of sales for Gildemeister Energy Storage GmbH, Austria, which was a world-leader in development of vanadium redox flow batteries. Mr. Schauss has a MSc. Physics from The University Mainz, Germany.

Concurrent with Stefan Schauss joining the Wealth Board of Directors, James M. Dawson is stepping down from his director seat. The Company's thanks Mr. Dawson for his contribution to Wealth in its formative years and wishes him well in his future endeavours.

Stock Option Grant

The Company also announces that, pursuant to its 2004 Incentive Stock Option Plan, it has granted incentive stock options to directors, officers, employees and consultants of the Company and its affiliates to purchase up to an aggregate of 350,000 common shares in the capital stock of the Company. The options are exercisable on or before February 13, 2020 at a price of \$1.35 per share.

About Wealth Minerals Ltd.

Wealth is a mineral resource company with interests in Canada, Mexico, Peru and Chile. The Company's main focus is the acquisition of lithium projects in South America. To date, the Company has positioned itself to develop the Aguas Calientes Norte, Pujsa and Quisquiro Salars in Chile (the Trinity Project), as well as to work alongside existing producers in the prolific Atacama Salar, in addition to the Laguna Verde lithium project acquisition. The Company has also positioned itself to play a role in asset consolidation in Chile with the Five Salars Project.

The Company continues to pursue new acquisitions in the region, the latest of which is the Seven Salars Project and is eager to move the projects forward into production. Lithium market dynamics and a rapidly increasing metal price are the result of profound structural issues with the industry meeting anticipated future demand. Wealth is positioning itself to be a major beneficiary of this future mismatch of supply and demand. The

Company also maintains and continues to evaluate a portfolio of precious and base metal exploration-stage projects.

Cautionary Note Regarding Forward-Looking Statements

This news release contains forward-looking statements and forward-looking information (collectively, "forward-looking statements") within the meaning of applicable Canadian and U.S. securities legislation, including the United States Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical fact, included herein including, without limitation, anticipated exploration program results from exploration activities, the Company's expectation that it will be able to enter into agreements to acquire interests in additional mineral properties, the discovery and delineation of mineral deposits/resources/reserves, the closing and amount of the Placement, and the anticipated business plans and timing of future activities of the Company, are forward-looking statements. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations

will prove to be correct. Forward-looking statements are typically identified by words such as: “believe”, “expect”, “anticipate”, “intend”, “estimate”, “postulate” and similar expressions, or are those, which, by their nature, refer to future events. The Company cautions investors that any forward-looking statements by the Company are not guarantees of future results or performance, and that actual results may differ materially from those in forward-looking statements as a result of various factors, including, operating and technical difficulties in connection with mineral exploration and development activities, actual results of exploration activities, the estimation or realization of mineral reserves and mineral resources, the timing and amount of estimated future production, the costs of production, capital expenditures, the costs and timing of the development of new deposits, requirements for additional capital, future prices of lithium, changes in general economic conditions, changes in the financial markets and in the demand and market price for commodities, lack of investor interest in the Placement, accidents, labour disputes and other risks of the mining industry, delays in obtaining governmental approvals, permits or financing or in the completion of development or construction activities, changes in laws, regulations and policies affecting mining operations, title disputes, the inability of the Company to obtain any necessary permits, consents, approvals or authorizations, including acceptance by the TSX-V, required for the Placement, the timing and possible outcome of any pending litigation, environmental issues and liabilities, and risks related to joint venture operations, and other risks and uncertainties disclosed in the Company’s latest interim Management Discussion and Analysis and filed with certain securities commissions in Canada. All of the Company’s Canadian public disclosure filings may be accessed via www.sedar.com and readers are urged to review these materials, including the technical reports filed

with respect to the Company's mineral properties.

Readers are cautioned not to place undue reliance on forward-looking statements. The Company undertakes no obligation to update any of the forward-looking statements in this news release or incorporated by reference herein, except as otherwise required by law.
