written by Raj Shah | July 6, 2026

July 06, 2026 ([Source](#)) – West High Yield (W.H.Y.) Resources Ltd. (TSXV: WHY) (“**West High Yield**” or the “**Company**”) announces that, further to its news releases of May 21, 2026 and June 24, 2026, it has received an extension from the TSX Venture Exchange (the “**TSXV**”) with respect to the final acceptance date of its previously announced private placement offering (the “**Offering**”) of units (the “**Units**”).

The outside date for the final closing and filing acceptance of all final documentation required by the TSXV in respect of the Offering has been extended from July 6, 2026 to July 31, 2026 (the “**Extension Date**”).

The terms of the Offering and the Units will stay the same up to and including the Extension Date, and the Offering remains subject to certain conditions including, but not limited to, the receipt of all necessary regulatory and other approvals including the final approval of the TSXV on or before the Extension Date.

About West High Yield

West High Yield is a publicly traded junior mining exploration and development company, established in 2003, and focused on acquiring, exploring, and developing mineral resource properties in Canada. Its primary objective is to develop its Record Ridge critical mineral (magnesium, silica, and nickel) deposit using green processing techniques to minimize waste and CO₂ emissions.

The Company's Record Ridge critical mineral deposit is located approximately 10 kilometers southwest of Rossland, British Columbia. Based on the independently prepared Preliminary Economic Assessment titled "Revised NI 43-101 Technical Report Preliminary Economic Assessment Record Ridge Project, British Columbia, Canada" prepared by SRK Consulting (Canada) Inc. and dated April 18, 2013, the Record Ridge critical mineral deposit contains a Measured and Indicated mineral resource of 43.0 million tonnes at an average magnesium grade of 24.61%. This corresponds to approximately 10.6 million metric tonnes of contained magnesium. The technical report was prepared in accordance with *National Instrument 43-101 Standards of Disclosure for Mineral Projects* ("NI 43-101") and is available under the Company's profile at <https://www.sedarplus.ca>.
