

Brendon Grunewald on Moovly's Google integration with G Suite

written by InvestorNews | July 30, 2020

"We have certainly seen growth as people work and learn from home and that has increased our user base and our subscription base as well. Increasingly we are seeing large corporations that froze their budgets at the start of corona are now looking to come back and still need to produce a lot of content. They need to get their economies and their companies back onto level, but they have restricted budgets and abilities. So, with the tools like ourselves they don't have to restrict the amount of content they create. They can produce even more content on a lower budget and hence achieve their stretched goals with less means." States Brendon Grunewald, President, CEO and Director of [Moovly Media Inc.](#) (TSXV: MVY), in an interview with InvestorIntel's Tracy Weslosky.

Brendon went on to provide an update on Moovly's Google integration with G Suite, which now allows for Moovly-created content to be uploaded both seamlessly and faster. He said that users can now move contents from Google Drive directly to Moovly and after they have edited the video they can publish the content on YouTube with the single click of a button. Brendon continued, "We pride ourselves in building what we believe to be the best product and that is obviously being validated by a number of customers out there."
