written by InvestorNews | February 17, 2023

In this InvestorIntel interview, Tracy Weslosky talks to [Fineqia International Inc.](#)'s (CSE: FNQ) President, CEO, and Director Bundeep Singh Rangar about its [recent analysis](#) of the global Exchange Traded Products (ETPs) market. With the crypto market surpassing the US\$1 trillion mark, Bundeep discusses how ETPs' Assets Under Management (AUM) value increased by 39% during the month of January, faster than the rise in crypto prices, indicating that new money is flowing into these institutional-quality asset types.

As a financial product that includes exchange-traded funds (ETFs) and exchange-traded notes (ETNs) with cryptocurrencies as underlying assets, Bundeep explains ETPs make it easier for retail and institutional investors to access quality digital assets. He also comments that the recent rebound in the cryptocurrency market has provided a lift for the crypto ecosystems in various countries that are embracing digital currencies and crypto ETPs.
