We found the November 4th news release titled, “*Visionstate Announces U.S. Pilot Project and Expands Customer Portfolio Across Key Sectors*” particularly noteworthy and here are 5 key data points from it:

- **U.S. Pilot Project Launched:** Visionstate signed a new pilot agreement with a major U.S.-based facility management company, starting with three hospital locations and potential expansion to 15 facilities, with a broader rollout expected upon successful completion.
- **Entry Into New Industries:** Visionstate onboarded a new customer to its MIRA inspection platform, starting with 10 locations and potential expansion to 70 more. This includes the Company’s first-ever deployments in the trucking and construction sectors.
- **Healthcare Footprint Expanding:** An additional Ontario hospital has adopted Visionstate’s technology and will serve as a case study for cleaning and compliance performance improvements.
- **Growth in Long-Term Care Sector:** October marked a significant increase in Visionstate’s adoption in long-term care facilities, driven by rising cleaning compliance and accountability requirements.

- **Strengthening SaaS Revenue Model:** Visionstate continues to scale its Software-as-a-Service (SaaS) business, focusing on customer acquisition and North American market expansion across IoT and data-driven facility management solutions.
