Visionstate is focused on investing in the development of new technologies in the Internet of Things (IoT), big data, analytics, and sustainability sectors. Through its subsidiaries, the company aims to create and commercialize innovative solutions that improve efficiency, sustainability, and customer experience across various industries. The company currently has [240,126,335](#) shares outstanding and has a market capitalization of [CAD\\$14,407,581](#).

In preparation for tomorrow's InvestorTalk, here are the three most recent news releases from Visionstate for your review, which are listed below:

- October 10, 2024 – Enoch Cree Nation and Sol Spaces Inc. Forge Transformative Partnership to Cultivate Sustainable Food Security – [click here](#)
- October 9, 2024 – Visionstate Ramps Up Expansion Plans – [click here](#)
- September 26, 2024 – Visionstate Corp. Announces Closing

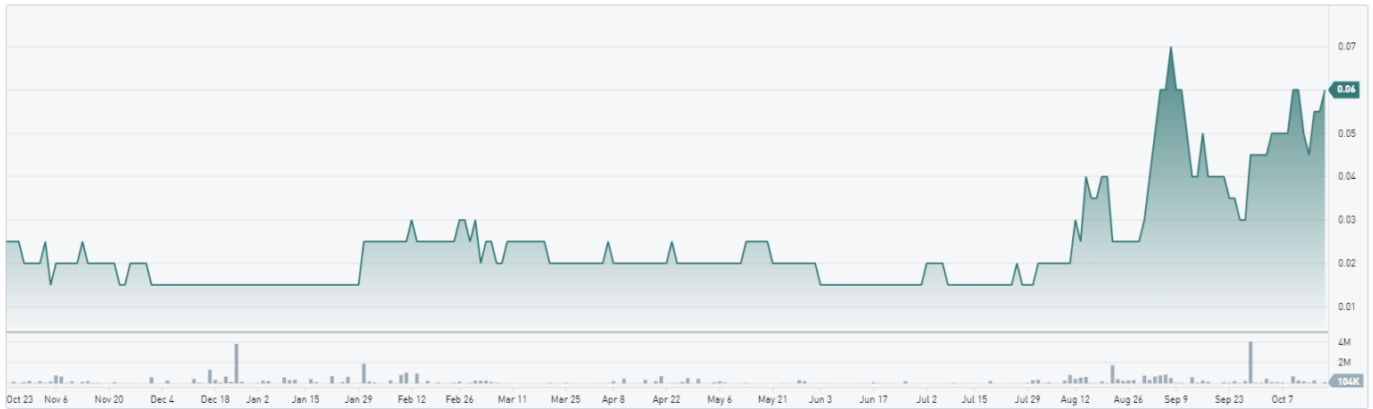

of Fully Subscribed Financing – [click here](#)

We found the October 9th news release titled, *Visionstate Ramps Up Expansion Plans*, particularly noteworthy, and here are 5 key data points from it:

- 1. Enhanced Marketing and U.S. Expansion:** Visionstate IoT Inc. is intensifying its marketing efforts to introduce the WANDA task management software to U.S.-based companies. The company is leveraging its established presence with several large U.S. customers to further penetrate the American market.
- 2. ISSA Cleaning Show Engagement:** As part of its U.S. expansion strategy, Visionstate will exhibit at the ISSA Cleaning Show in Las Vegas from November 19-21. The company has initiated an aggressive lead generation campaign in collaboration with U.S. partners, aiming to arrange meetings during the show to showcase how WANDA can improve operational efficiency and aid in disease prevention.
- 3. OTC Markets Listing:** Visionstate is initiating the process to secure a listing on the OTC markets, aiming to broaden its investor base within the U.S.
- 4. Increased Deployments:** The company is expanding its deployment of WANDA, particularly in educational institutions across Canada, and is planning new installations in large manufacturing facilities and municipal operations. This expansion is expected to significantly grow Visionstate's customer base.
- 5. Product Innovation and Development:** Visionstate is developing new features for WANDA, including robust inspection and auditing capabilities and integrating Artificial Intelligence technologies to enhance scheduling and routing. These developments are anticipated to bring

major efficiency gains to users.
