

InvestorTalk Alert: Sheldon Bennett from DMG Blockchain Solutions Inc. to host on Wednesday, April 1, 2026, at 4:05 PM EST

written by InvestorNews | March 31, 2026

InvestorNews.com is pleased to announce an upcoming InvestorTalk scheduled for tomorrow, **Wednesday, April 1, 2026, at 4:05 PM EST**, featuring **Sheldon Bennett, CEO and Director, [DMG Blockchain Solutions Inc.](#)** (TSXV: DMGI | OTCQB: DMGGF). To participate in this engaging discussion, please email tracy@investornews.com to **RSVP**.

DMG Blockchain is a sustainable, vertically integrated blockchain and data center technology company that develops, manages, and operates comprehensive platform solutions to monetize the blockchain ecosystem. The Company's operations are driven by two strategic pillars: Core and Core+, both unified by DMG's commitment to vertical integration and environmentally responsible practices. DMG's subsidiary Systemic Trust Corporation is focused on custody of digital assets.

In preparation for tomorrow's InvestorTalk, here are some recent news releases from DMG Blockchain for your review, which are listed below:

- March 5, 2026 – DMG Blockchain Solutions Announces 75 MW Utility Approval Expanding Christina Lake Data Center Power, February Preliminary Operational Results – [click here](#)

- February 25, 2026 – DMG Blockchain Solutions Reports First Quarter 2026 Financial Results – [click here](#)
- February 6, 2026 – DMG Blockchain Solutions Announces Receipt of \$1.5 Million Energy Efficiency Incentive, January Preliminary Operational Results – [click here](#)

We found the March 5th news release titled, “*DMG Blockchain Solutions Announces 75 MW Utility Approval Expanding Christina Lake Data Center Power, February Preliminary Operational Results*” particularly noteworthy and here are 5 key data points from it:

- **Power Capacity Increased to 75 MW** – DMG Blockchain Solutions Inc. received approval for an additional 10 MW of non-firm power, bringing total available capacity at its Christina Lake facility to 75 MW (15 MW firm + 60 MW non-firm).
- **Shift Toward Non-Firm Power Strategy** – The Company plans to pursue additional non-firm power instead of firm power, citing faster availability and lower capital costs, with only minimal historical curtailment.
- **AI Data Center Positioning** – DMG is exploring AI data center opportunities, including potential use of hedged power contracts, which are more suitable for AI workloads than Bitcoin mining.
- **Energy Flexibility and Sustainability Options** – The Company is evaluating natural gas and renewable natural gas (RNG) for backup or primary power, offering potential for carbon-neutral operations.
- **February 2026 Operational Metrics** – DMG mined 23 BTC, achieved 1.78 EH/s hashrate, and held 410 BTC, with some Bitcoin sold to fund operations.
