

Visionstate's John Putters on Revolutionizing Facility Management with AI-Driven Solutions

written by InvestorNews | October 28, 2024

October 28, 2024, – In a recent interview with Pat Bolland, host of **InvestorNews**, John Putters, CEO and Director of [Visionstate Corp.](#) (TSXV: VIS), discussed Visionstate's ongoing expansion and innovation efforts. Highlighting a strong partnership with Bunzl Canada, Putters noted the success of their WANDA technology in the Canadian market, where it has been well-received and proven through endorsements from institutions such as Queen's University. "The mere fact that they came out and endorsed it, I think, says a lot about Visionstate's technology," said Putters. This success has garnered interest from international markets, including Europe and Asia, setting the stage for further global deployment.

Putters also outlined Visionstate's strategic approach to penetrating the U.S. market, leveraging their relationship with Blackstone, the world's largest private equity real estate firm. Visionstate is focused on scaling quickly across large facilities, including educational institutions and corporate offices. Their WANDA software has been optimized for large-scale deployments, allowing them to track thousands of locations efficiently. As part of their U.S. expansion [strategy](#), Visionstate will be participating in the ISSA Cleaning Show in Las Vegas in November, using the event as a platform to engage with new distributors and build partnerships to accelerate their market presence. Additionally, Visionstate is continuing its

focus on AI integration to enhance scheduling and optimize operations, a move Putters believes will further solidify the company's role as an innovator in facility management solutions.
